Back in January...

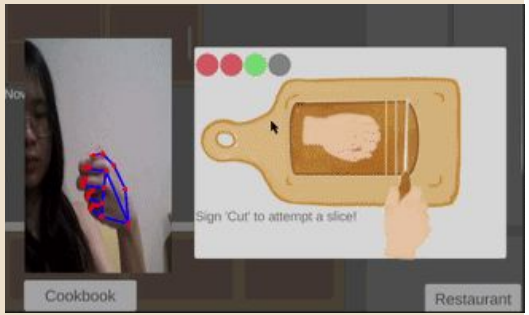

State of the game

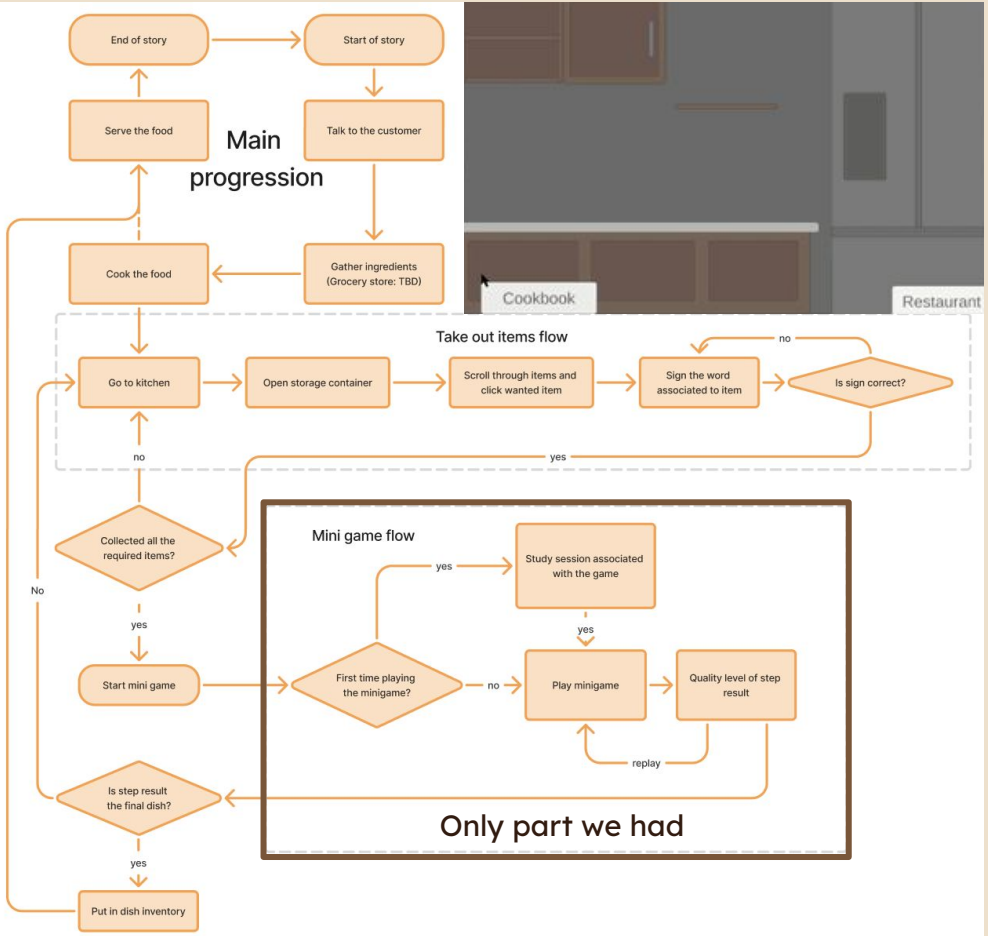

Issues:

- Not made for mobile
- Art assets not used
- Fragmented code that needs to be connected
- Bugs!!

Current State

Sign
Granny
Let me know what you need
Sign "Dance" to pick up the knife!
Dance
Tutorial
Currently, we do not have the correct signs integrated yet, so all minigames use "Cut" and "Dance" as a placeholder.

Color Usage Rules
- Maintain soft contrast.
- Avoid harsh black-on-white combinations.
- Do not use neon or overly saturated tones.

Typography

Madimi One — For headings
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789@#&

Lexend — For Body text (regular and light)
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789@#&

Mission

Deafinitely Delicious creates warm, story-driven experiences that help families learn American Sign Language (ASL) through interactive, low-pressure, and emotionally resonant game play.

Brand Voice & Tone

Voice:
- Warm
- Encouraging
- Gentle
- Sincere

Write like:
- A comforting cooking show host
- A patient mentor
- A family member sharing a story

NOT:
- Clinical
- Academic
- Sarcastic
- Competitive
- Harsh

ASL Writing Standards:
- First reference: American Sign Language (ASL) → After: ASL
- Capitalize "Deaf" when referring to culture/community.
- Never refer to signs as "gestures."

Overview [edit | edit source]

Synopsis: [edit | edit source]

Deafinately Delicious is a cozy, narrative-driven cooking game where players inherit
use American Sign Language (ASL) to shop for ingredients, prepare recipes through
memories tied to the restaurant, deepening the player's connection to the communit
its role as a cherished gathering place. The game blends language learning with me

Game Play [edit | edit source]

ASL Learning Loop [edit | edit source]

1. Introduce sign (via recipe, ingredient, or dialogue)
2. Player practices sign via cookbook
3. Game action occurs (collect, cook, communicate)
4. Immediate visual feedback (correct/incorrect)
5. Reinforcement through repetition in future tasks

Narrative Loop [edit | edit source]

1. Meet customer
2. Learn their request/story context
3. Choose or prepare a relevant dish
4. Complete cooking process
5. Serve dish
6. Unlock new dialogue/story beat
7. Transition to next customer

Current State (As of 3/31/2026) [edit | edit source]

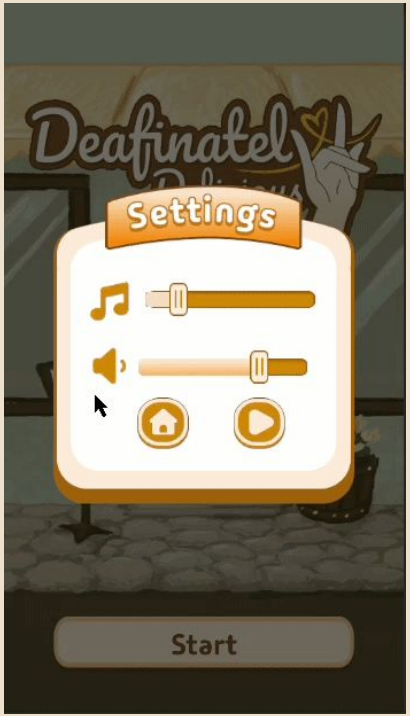

Functional Features [edit | edit source]

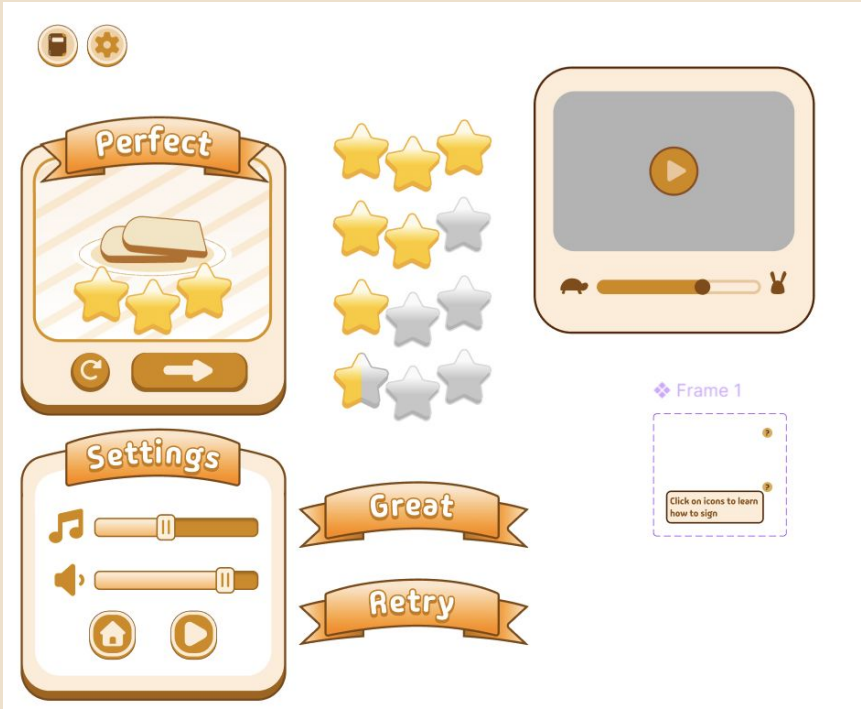

- Prologue dialogue with character switching, dialogue choices that impact respon
- Restaurant, Kitchen, and Grandma's house locations are all accessible with art

Minigame UI/UX + General UI/UX

Sound Design

Jay Patel
Sound designer

- All sounds have been finalized and integrated into the game
- A folder has been created with all clipped SFX
- All of the music has been found and converted to MP3

Restaurant:

1. https://www.youtube.com/watch?v=sV0Aqmt1Uck&list=PLbky1Uo8tP8CSLdGbdwFezMjDuukfUh7A&index=2
    a. Like the beats for this because it's more drums and percussions than electronic beats
2. https://www.youtube.com/watch?v=oRWZvs-kwLw&list=PLfP6i5T0-DkK52drjlLM2wEGXSL-rqF4T (0:50 onwards)
3. https://www.youtube.com/watch?v=CX-hVk6C5wM&list=PLfP6i5T0-DkK52drjlLM2wEGXSL-rqF4T&index=3 (more upbeat vibe)
4. https://www.youtube.com/watch?v=3aH8PFwpJu4&list=PLfP6i5T0-DkK52drjlLM2wEGXSL-rqF4T&index=10
    a. Also liked this one's pacing, slower and more melodic

Grandma's House:

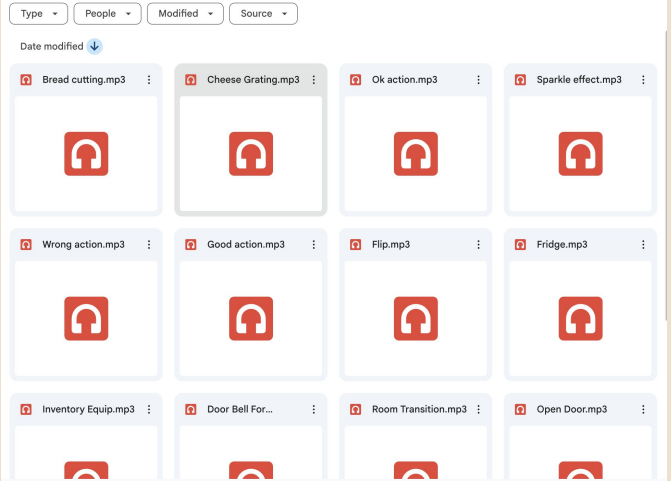

1. https://www.youtube.com/watch?v=hw4-LDKcDmU&list=PLQwRmTwWx0ubcpv0SkHroupj1LqW5_Va5&index=13
2. https://www.youtube.com/watch?v=c5qY8215mGU&list=PLQwRmTwWx0ubcpv0SkHroupj1LqW5_Va5&index=15

"Free to use for youTube,Instagram,facebook,tiktok and Naver only."

- Lowk these sound a bit sad :(try going for: cozy, sunrise if that makes sense LMAO
- I like the slowness of the sounds
- I will say try to find something without prominent beats/drums bc it makes it sound more youthful

https://www.youtube.com/watch?v=rlYnXqvRJVM

- Treehopper less outdoors
- https://drive.google.com/file/d/17s6fRlqtiF3Th1Fh0RUH_n9iYC7gK5XF/view?usp=sharing (Jazz w/o drums)
- https://www.youtube.com/watch?v=xm0zT8Sim3c
- https://drive.google.com/file/d/1M3OObNYsTdbDdrFq7OK-2tmSYnjTLH6V/view?usp=sharing (Upbeat w/o drums)

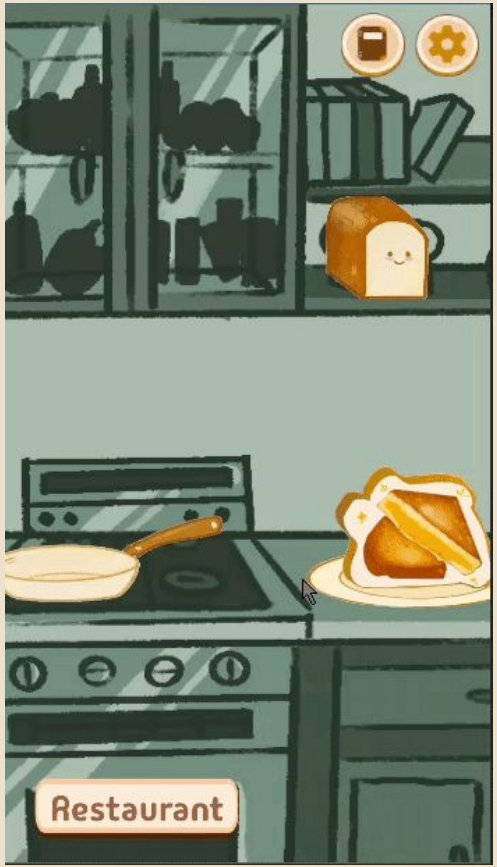

Programming

Nix Pham
Lead programmer

- Completed tutorial sequence ensuring full flow from prologue -> grandma’s house -> kitchen minigames -> serving
- Implemented serving system and replayability (as many grilled cheese as you want!)
- Integrated all artwork
- Minigame overhaul with new starting system

Storage popups programming

Katya Gaidachuk
Programmer

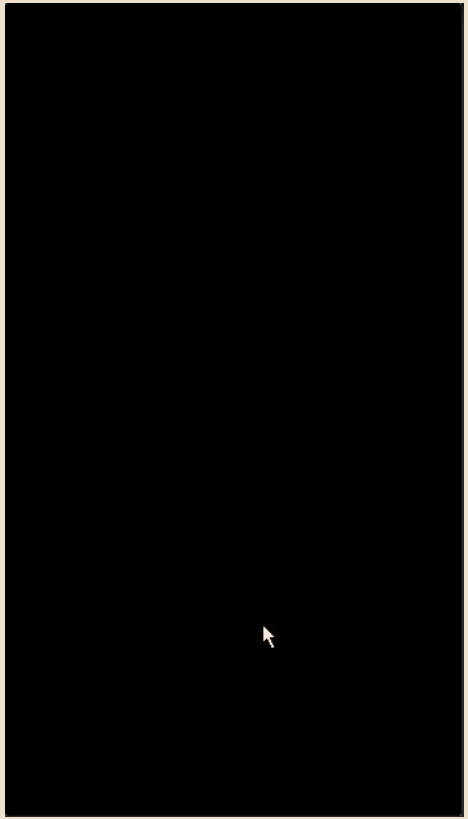

Dialogue for Prologue (+options)

Katya Gaidachuk
Programmer

Programming

Bridgette Castronovo
Programmer

- Updated settings with new art and functionality
- Overhaul of the study session accessible in tutorial, cookbook, and mingames
  - Ensured replayability, video speed, and continue buttons are all functional

Programming + SFX

Prajval Manivannan
Programmer

- Finalized the cookbook system from last time through adding better navigation to examine dishes, words, and see study sessions for ASL!
- Finalized SFX logic both for core interactions + minigames
- Integrated sounds into background music per scene and immersive SFX per task (such as flipping through the cookbook) to fit in with gentle aesthetic but offer immersive aspect as well

Next Steps

What the demo is missing:

- Being able to sign ingredients to grandma
- Being about to collect ingredients from storage popup by signing
- UI/UX feedback for minigames
- Streamline tutorial:
  - Some dialogue is inconsistent
  - Hotspots are not obvious
- Visuals for prologue
- Visual for receiving cookbook/deed to restaurants

Expansion:

- Add shops with different mini games to collect ingredients
- Add more recipes, npcs and locations!
- Continue the story line, expand the world.

Questions?

Thank you <33

General Meeting updates

Deafinatel Delicious

A cozy, narrative-driven ASL cooking game

Katelyn Gumagay, Nix Pham, Krisha Ulagadde, Katya Gaidachuk, Prajval Manivannan, Jay Patel

Current Progress

Design lead: Katelyn

- Wrote the game wiki
- Created a vectorized logo
- Created tasks for github
- Rewrote script in minigame to align with current design
- Reviewed work to ensure alignment

UIUX: Ngan

- Minigame flow improvement
- Minigame complete UI/UX
- Settings UI/UX

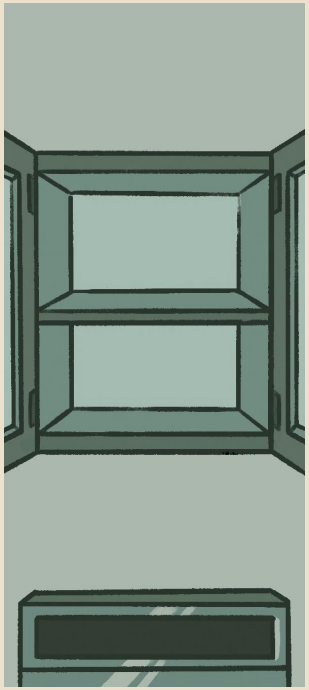

Moved to a different team

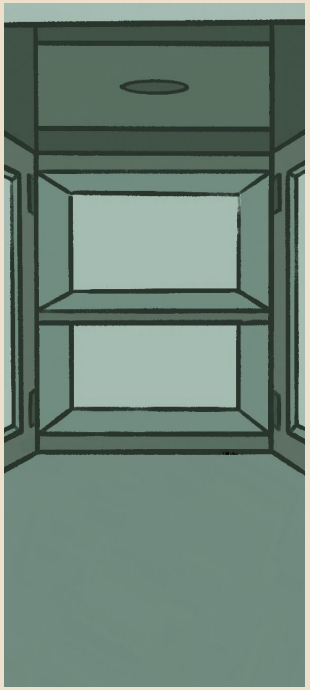

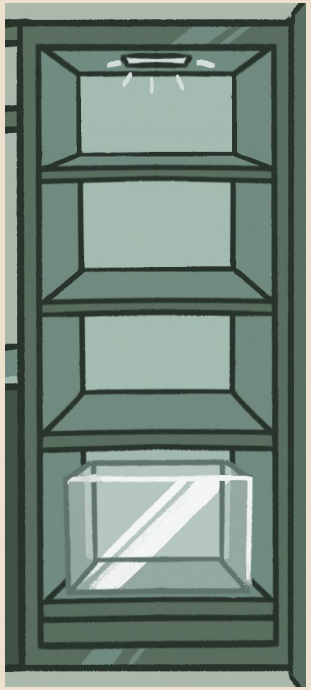

Background art: Krisha

- Worked on designing popups for the interactable objects in the kitchen.
- Created an open fridge pop up giving a space for users to grab items from the fridge.
- Created two cabinet popups giving a space for users to grab items from these cabinets.

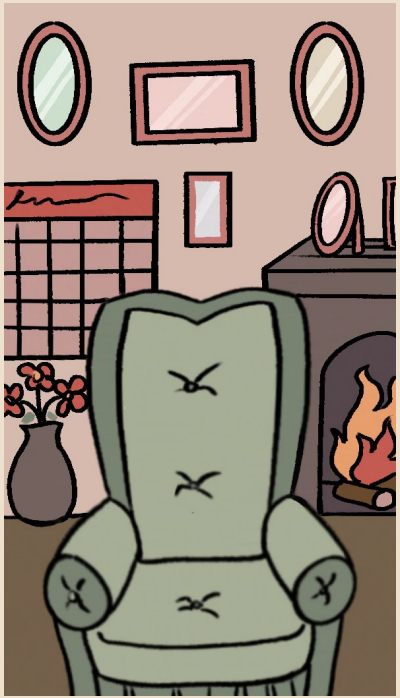

Background art: Krisha

- Finished designing the grandma's house scene allowing players to have a new area to interact with with grandma.
- Added changes to the kitchen scene based on feedback.
- Added items and silhouettes of items to make the kitchen look more visually interesting.

Music: Jay

- Finalized sounds for certain aspects of the minigames
- Focusing on finding music for the major settings in the game
- Started to work on haptics for button clicks within the game

Restaurant:

1. https://www.youtube.com/watch?v=sV0Aqmt1Uck&list=PLbky1Uo8tP8CSLdGbdwFezMjDuukfUh7A&index=2
    a. Like the beats for this because it's more drums and percussions than electronic beats
2. https://www.youtube.com/watch?v=oRWZys-kwLw&list=PLfP6i5T0-DkK52drjlLM2wEGXSL-rqF4T (0:50 onwards)
3. https://www.youtube.com/watch?v=CX-hVk6C5wM&list=PLfP6i5T0-DkK52drjlLM2wEGXSL-rqF4T&index=3 (more upbeat vibe)
4. https://www.youtube.com/watch?v=3aH8PFwpJu4&list=PLfP6i5T0-DkK52drjlLM2wEGXSL-rqF4T&index=10
    a. Also liked this one's pacing, slower and more melodic

Grandma's House:

Minigame sounds:

Grilled cheese cooking:

1. https://www.youtube.com/watch?v=He461EWLVw0 (0:23 - 0:26)
2. https://www.youtube.com/watch?v=i6PYS0SPwO4 ← Chose this one
3. https://www.youtube.com/watch?v=GMNFph2tn2c

Find sound for "woosh" when the player flips the grilled cheese:

Cheese grating

Bread Slicing:

1. https://www.youtube.com/watch?v=VvfkNdqOC-8
2. https://www.youtube.com/watch?v=hkqbvHgd_CU ← Chose this one - 1 sec from start and end

Level up/Recipe Unlocked:

1. https://www.youtube.com/watch?v=n4qnDaSidJs

Programming + SFX: Prajval

- Finalized the cookbook system from last time through adding better navigation to examine dishes, words, and see study sessions for ASL!
- Integrated sounds into background music per scene and immersive SFX per task (such as flipping through the cookbook) to fit in with gentle aesthetic but offer immersive aspect as well

Restaurant:

1. https://www.youtube.com/watch?v=sV0Aqmt1Uck&list=PLbky1Uo8tP8CSLdGbdwFezMjDuukfUh7A&index=2
    a. Like the beats for this because it's more drums and percussions than electronic beats
2. https://www.youtube.com/watch?v=oRWZvs-kwLw&list=PLfP6i5T0-DkK52drjlLM2wEGXSL-rqF4T (0:50 onwards)
3. https://www.youtube.com/watch?v=CX-hVk6C5wM&list=PLfP6i5T0-DkK52drjlLM2wEGXSL-rqF4T&index=3 (more upbeat vibe)
4. https://www.youtube.com/watch?v=3aH8PFwpJu4&list=PLfP6i5T0-DkK52drjlLM2wEGXSL-rqF4T&index=10
    a. Also liked this one's pacing, slower and more melodic

Grandma's House:

1. https://www.youtube.com/watch?v=hw4-LDKcDmU&list=PLQwRmTwWx0ubcpv0SkHroupj1LqW5_Va5&index=13
2. https://www.youtube.com/watch?v=c5qY8215mGU&list=PLQwRmTwWx0ubcpv0SkHroupj1LqW5_Va5&index=15

"Free to use for youTube,Instagram,facebook,tiktok and Naver only."

- Lowk these sound a bit sad :(try going for: cozy, sunrise if that makes sense LMAO
- I like the slowness of the sounds
- I will say try to find something without prominent beats/drums bc it makes it sound more youthful

https://www.youtube.com/watch?v=rlYnXgvRJVM

- Treehopper less outdoors
- https://drive.google.com/file/d/17s6fRlqtiF3Th1Fh0RUH_n9iYC7gK5XF/view?usp=sharing (Jazz w/o drums)
- https://www.youtube.com/watch?v=xm0zT8Sim3c
- https://drive.google.com/file/d/1M3OObNYsTdbDdrFg7OK-2tmSYnjTLH6V/view?usp=sharing (Upbeat w/o drums)

Find sound for completing a "good" action:
https://youtu.be/fQZFoiSeuKQ?si=kZldyTqh7-p3w3US

- Have this go from 0:25 to 0:26 for the "good" action

https://www.youtube.com/watch?v=jDu5ZkO5FO8

- "Correct" chime, might be a bit aggressive for our aesthetics

https://www.youtube.com/watch?v=jBsOdep6YqI

- Classic game show "ding!". Might be good for catching attention?

https://youtu.be/cPosJJm6A0U?si=y8lft6uYDqISCnHh

- Very positive sound

Find sound for completing an "ok" action:
https://youtu.be/fQZFoiSeuKQ?si=kZldyTqh7-p3w3US

- Have this go from 0:29 to 0:30 for the "ok" action
    - Less "oomph" to differentiate it from the good action

https://www.youtube.com/watch?v=1TTSWWobIQE

- 0:15 - gentle, neutral "tick/pop", gives into our aesthetic and is good for immediate sound upon action

https://www.youtube.com/watch?v=dFGHrYjRd7U

- 0:01, light and quick response

https://youtu.be/_q8QmJadSEE?si=xGnISbwSqQ92j6e0

- A neutral way to say "ok" without too aggressive or negative sounding effect

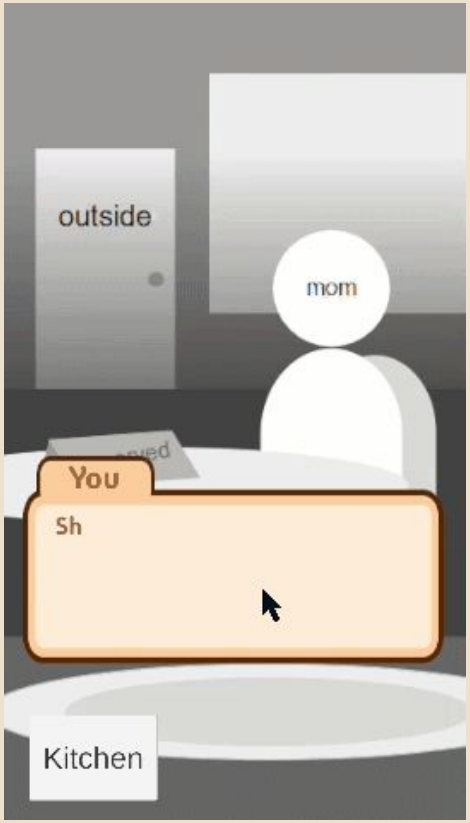

Find sound for completing an "bad" action:

1. https://www.youtube.com/watch?v=FqDz5ZMvCDU
    a. Liked the tap wrong (00:21) and wrong answer 3 (00:45). Not too certain
    b. Short is good Probably lean towards like piano effects rather than digital
2. https://youtu.be/eKlQYpTz-3Y?si=MRTg_motTmZ6Vg6F
3. https://www.youtube.com/watch?v=TuyqfUXNm0Q fast piano chord that gives a fast failure "oops" without sounding harsh
4. https://www.youtube.com/watch?v=jBsOdep6YqI a good contrasting sound
5. https://youtu.be/nrKdDwEYNSs
    a. Dissonant chord, scary sound but accomplishes this without much aggression

Programming lead: Nix

- Minor tweaks to the transitions in the Prologue Dialogue
- Began working on the inventory system with connections and visualizations within the cookbook
- Work on DeafDelish wiki for features

Programming: Katya

- UI for transitioning to a “storage” scene
- Clicking opens a horizontal scrollview popup with ingredients and a close button
- Clicking on the ingredients will start a motion tracker, where you need to sign to collect the ingredient.

Next Steps

Scope by the end of the semester

We plan on having a fully functional demo of the main gameplay loop and its main features available for testing:

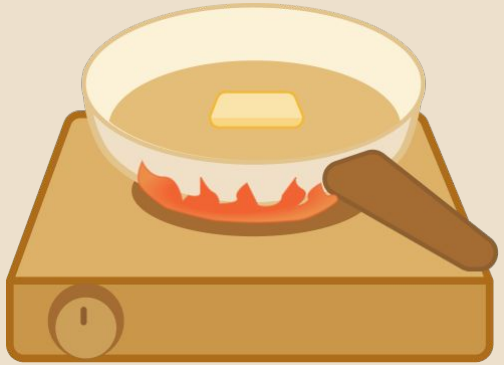

- Prologue + introduction to Mom and Grandma dialogue
- Receive cookbook with recipes and introduction to ASL from grandma
- Get your first dish request: grilled cheese
- Use the kitchen and cookbook to collect ingredients
- 3 minigames that uses ASL to progress/cook
- Serve your first dish!

Cute gif for audience retention: https://media.giphy.com/media/v1.Y2lkPWVjZjA1ZTQ3aTg3eXh2M3QxN3l1Znd3MWFjOGYzcGV5ajNjaWg5NW56Ym9wajYzdyZlcD12MV9naWZzX3JlbGF0ZWQmY3Q9Zw/JIX9t2j0ZTN9S/giphy.gif

Plan for the next few weeks

- Katelyn: Work on trailer (?), pickup any art tasks necessary
  - Hoping to do play testing if the time permits
- Krisha: finish popup for drawer and shelf
- Jay: Review sfx from Prajval + Solidify music for the game
- Nix: Finish inventory system- signing for items; serving system
- Katya: Finish inventory system- storage popups
- Prajval: Finish cookbook system

Questions?

Thank you <33

Sprint 3 02/26-03/11

Katelyn	Go through tutorial writing and write for all possible cases
Ngan	Item acquired uiux
Krisha	Finish all popups for the kitchen
Christina	Find all music and sound effects requested. Be at a point where we can finalize
Nix	prologue dialogue needs to be finished, instructions on kitchen
Jebin	Title screen, pause, settings menu, fail/success minigames points system
Katya	Grandma’s house +post dialogue, sign to choose a dialogue choice
Brigette	Cookbook acquisition sequence -> learn the ASL detector with grandma

02/26/2026

Sprint 2 end- 02/26

Katelyn	Documentation restructure, 2/24 checkpoint, design upgrades
Ngan	Upload finished ui/ux +reusables, cookbook redesign, minigame flow
Krisha	Finish grandma’s house, start on popups for kitchen
Jay	Find music inspo/potentials to vote on, list of sound effects needed
Nix	prologue dialogue needs to be finished, instructions on kitchen
Dylan	Title screen, pause, settings menu, fail/success minigames points system
Katya	Grandma’s house +post dialogue, sign to choose a dialogue choice
Brigette	Cookbook acquisition sequence -> learn the ASL detector with grandma

General Meeting updates

Deafinitely Delicious

A cozy, narrative-driven ASL cooking game

Katelyn Gumagay, Ngan Do, Nix Pham, Bridgette Castronovo, Krisha Ulagadde, Katya Gaidachuk, Dylan Li, Jay Patel

2/24/2026

Team:

Katelyn Gumagay
Lead designer

Ngan Do
UI/UX designer

Jay Patel
Sound designer

What is Deafinitely Delicious?

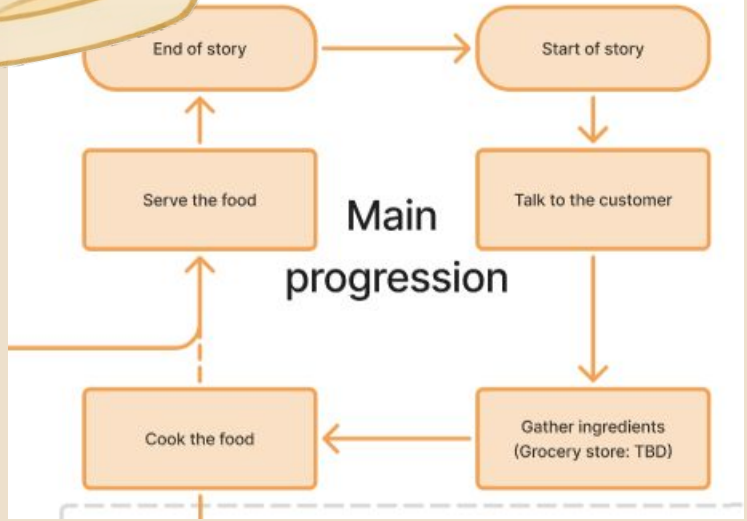

- Cooking story game
- Learn and master signs through engaging cooking mini games
- Navigate through a heartwarming story about family and community as you take over your grandmother’s restaurant.

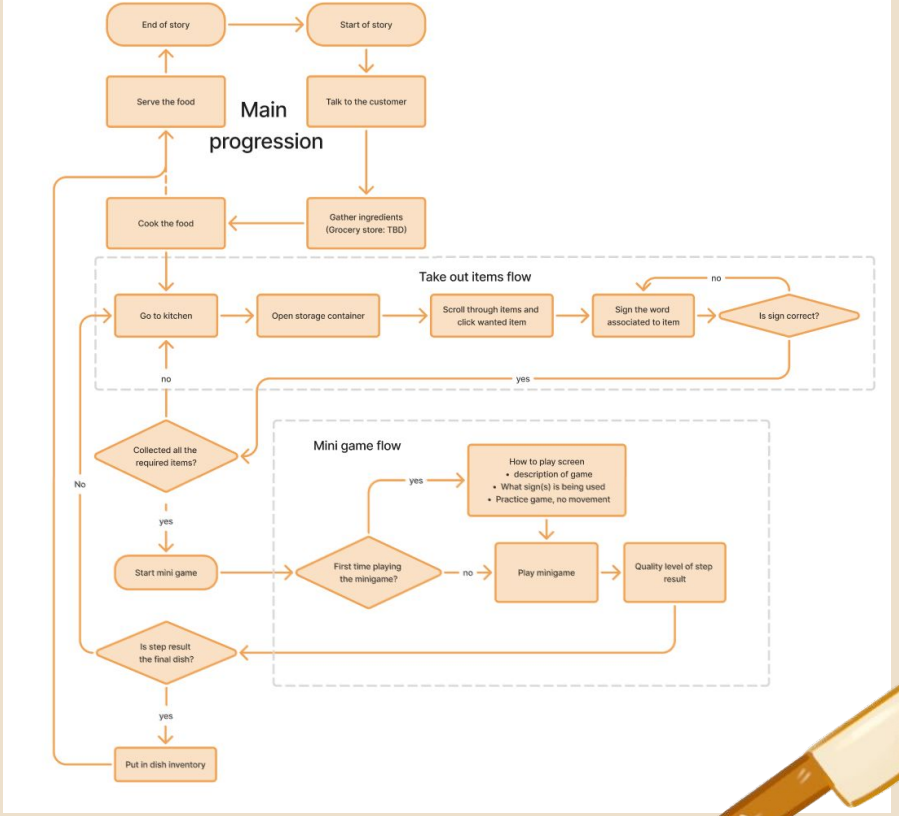

Katya

Game loop:

Story arc based progression.

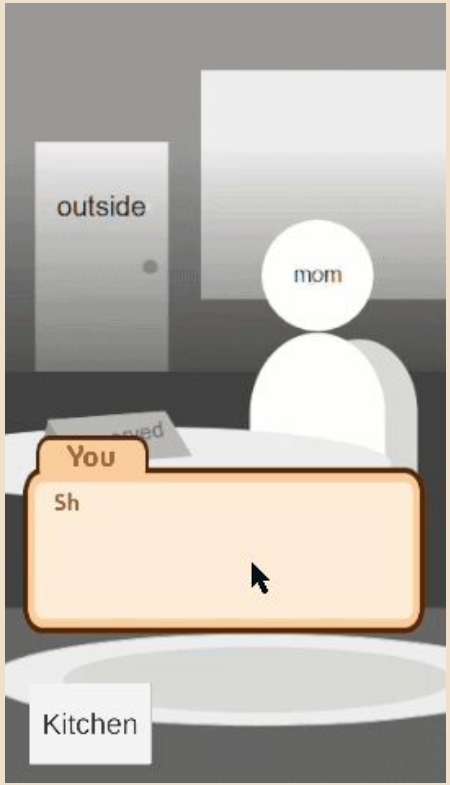

- Start: getting the order
- End: serving the order

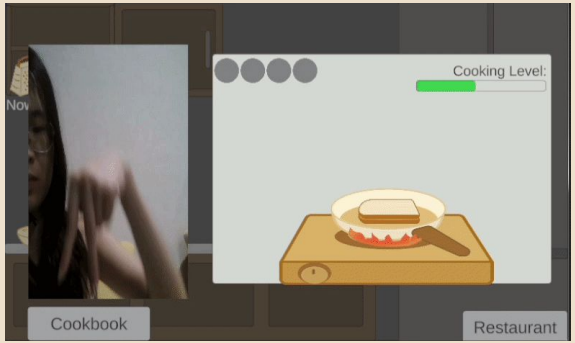

Completing stories -> new Content

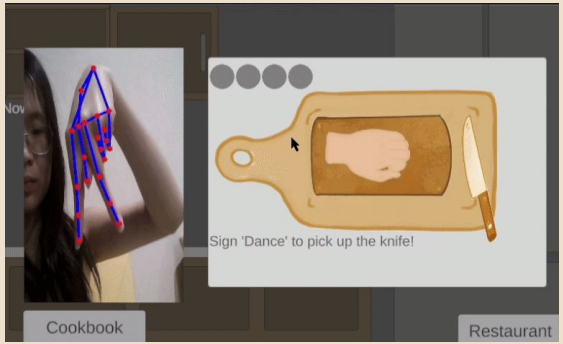

Current State

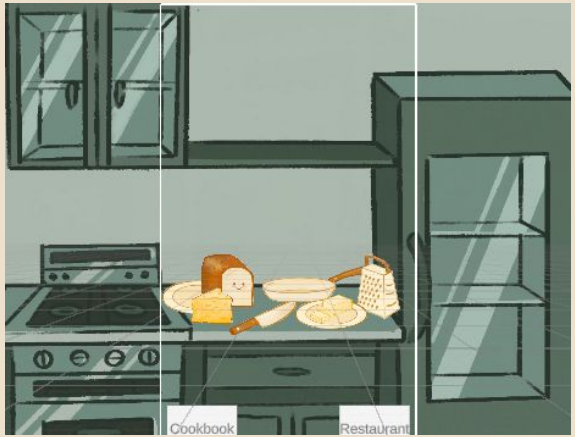

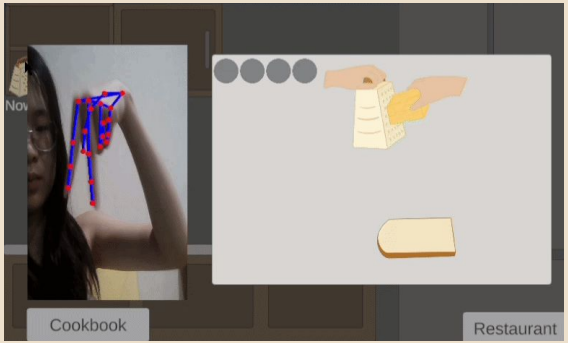

Current State: GIFs

Katya

Current State: Programming Technical

- Built a functional kitchen and restaurant game environment with scene and state management.
- Implemented a branching dialogue system with player choice logic.
- Developed three sign-detection minigames that gate player progression.
- Created an interactive cookbook tool to teach and reinforce ASL signs.

Cute gif for audience retention:
https://media.giphy.com/media/v1.Y2lkPTc5MGI3NjExaHAwNzZrenpoNnN4czdxZHQxNTdjcWtzaXgyb3l2Zml0NnB1MnFscSZlcD12MV9naWZzX3NlYXJjaCZjdD1n/b5Hcaz7EPz26I/giphy.gif

Nix

Current State: Programming goals in progress

- Working on adjusting the UI elements to fit better on a vertical screen
- Implementing the new art assets created by the art team
- Working on connecting different scenes and making them look cohesive
- Trying strategies to improve the recognizer's accuracy and error handling with in the game
- Updating cookbook UI with the team's figma designs

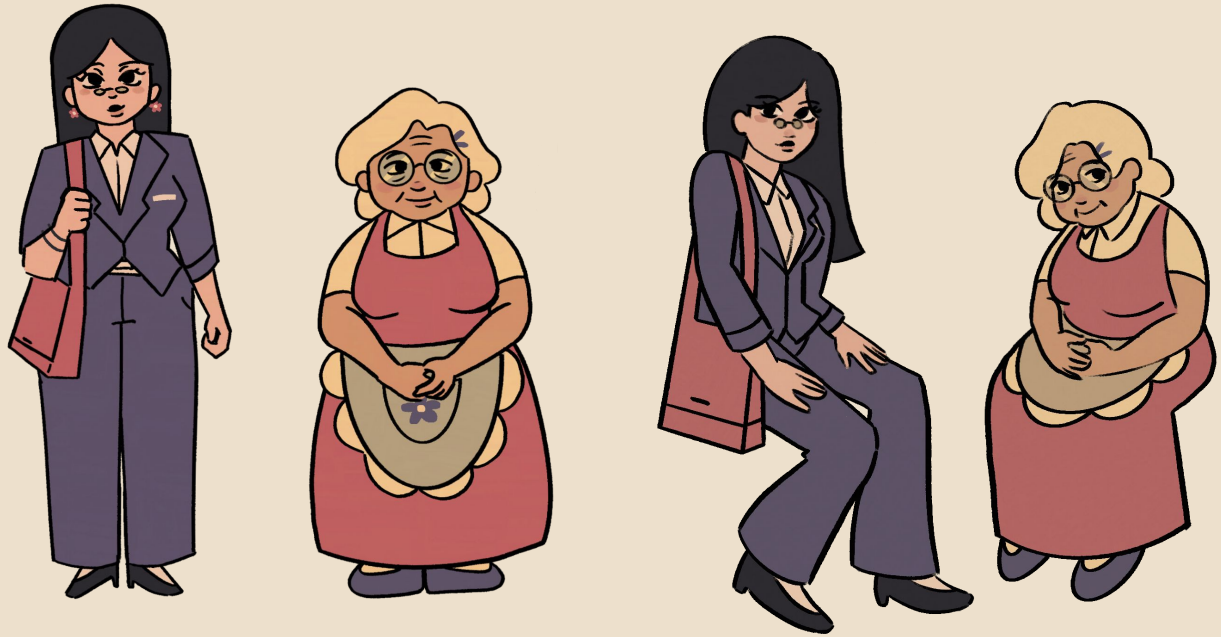

Cute gif for audience retention: https://media1.giphy.com/media/v1.Y2lkPTc5MGI3NjExamI2NDY1aWFhajk3cHVmZ202cGd2eTZuOWUzOW5xYmlmaTRzNWw4OCZlcD12MV9pbnRlcm5hbF9naWZfYnlfaWQmY3Q9Zw/sVHPKtZFSWlgd3403w/giphy.gif

Bridgette

Current State: Art (Characters)

- Mom and Grandma designs finalized.
- Created standing and sitting sprites for both characters.

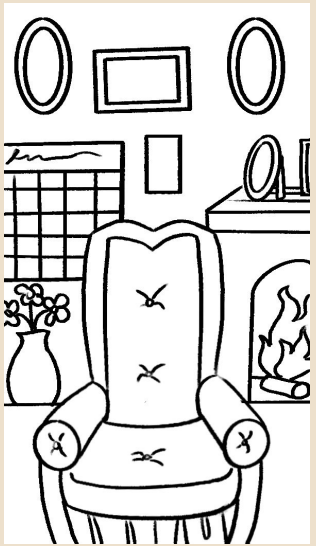

Krisha

Current State: Art (backgrounds)

- Redesigned both kitchen and restaurant to be more cohesive with character art.
- Working on designing grandma's house

Krisha

Current State: Sound

- Potential sounds found for each aspect of the game
- Working on finalizing sounds for the major parts of the game
- Will begin to work on more niche sounds/music

Grandma's Kitchen:

Jay

Design Improvements

Cookbook flesh out

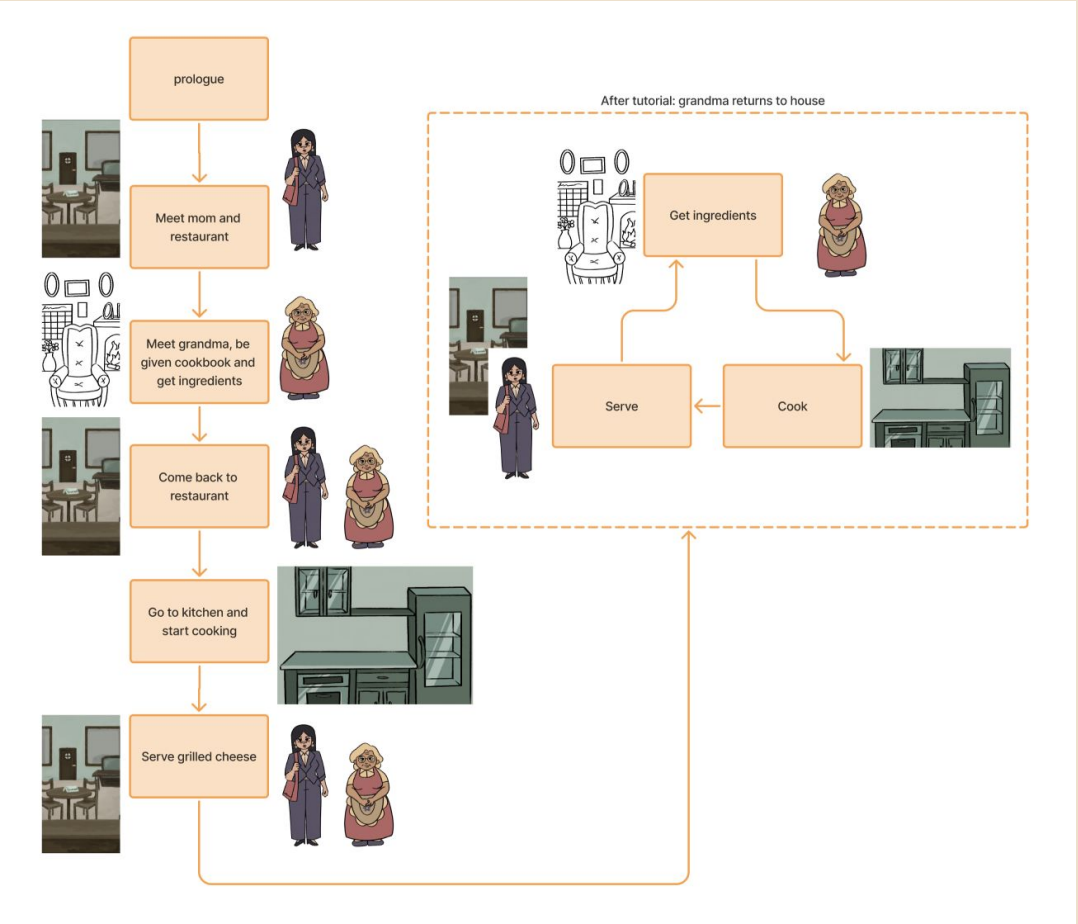

Expanding the Cookbook into a Progress-Tracking Tool, introducing 2 additional tabs:

- Words Tab:
  - Track learned words throughout the game
  - Functions like an inventory system (display number of ingredients player have in their kitchen)
- People Tab
  - Track relationships with NPCs
  - Track quests

Ngan

Clearer Demo game loop

Katelyn

Fleshed out getting ingredients from Grandma

Unlike the ingredients grabbing system in the kitchen, the player doesn't have to indicate which word they want to sign. The player will just sign the ingredient they want regardless of order. However there's a checklist showing the amount of ingredients that the player has and when the player has at least 1 of each they can click "done."

- The tutorial will tell the player to sign bread but if the player signs anything else the tutorial will go "wow you're ahead of the game!" or something like that (may try to write so that there isn't a random tutorial character)
- Grandma says action-oriented feedback

Katelyn's really bad mockup "im not the ui designer" ->

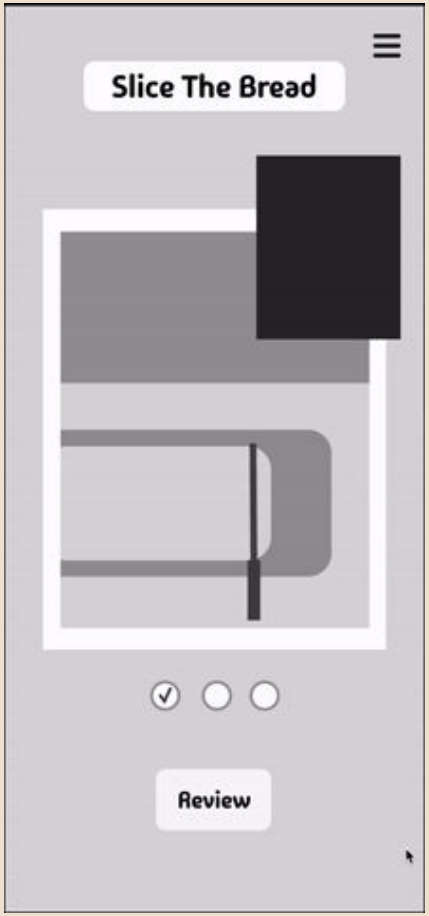

Katelyn

Minigame flesh out

In all minigames the player passes the minigame no matter how well they score in it, the only difference is the quality of the output which is represented by 3 stars.

- The range is 0-3 in ½ increments.
  - Most of the time the minigame will have 3 chances to do one action, you can do that action miss, ok, good. And they add up to the final quality.
- If the player gets a low score they are encouraged to redo the step
  - In the tutorial the player is told to try again if they fail again the game gives an “ok” output for them and tells them to continue

Ngan

Documentation clean up

- Reorganized the structure.
- Added information from above
- Added table of contents
- Added “what’s covered in this section”

Table of contents

Overview:
1. General information
2. Marketing

Onboarding:

Game world:
1. Overview
2. The Physical World
3. Pre-Game Narrative
4. NPCs and how they should be crafted
5. Narrative order

- Locations
- Demo/Tutorial (script)

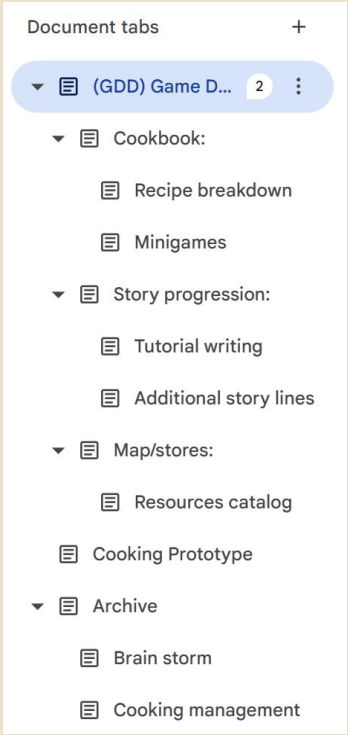

Game Play:
1. Core loop
2. Objectives and Progression
3. Player movement
4. Kitchen and Cooking

- Minigames

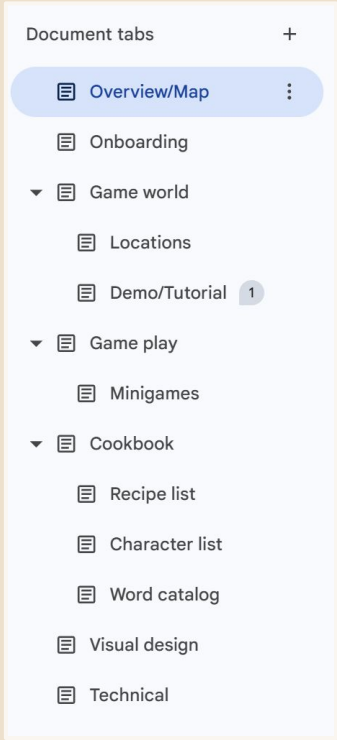

Cookbook:
1. Purpose of the cookbook
2. The 3 tabs and their purpose

- Recipe list
- Character list
- Word Catalog

Old

new

Pitch deck

Deafinitely Delicious

A cozy, narrative-driven ASL cooking game

2/10/2026

Overview:

Shop, cook, and serve dishes by using ASL

Audience: young adults~adults

Genre: Sandbox cooking Simulation, minigame compilation, Narrative-driven

Structure: Linear Narrative with multiple arc endings + non-story customers for practice

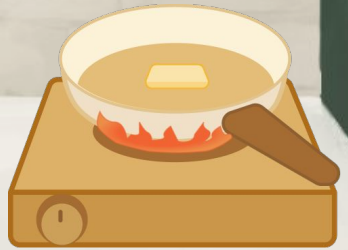

Deafinitely Delicious' Narrative

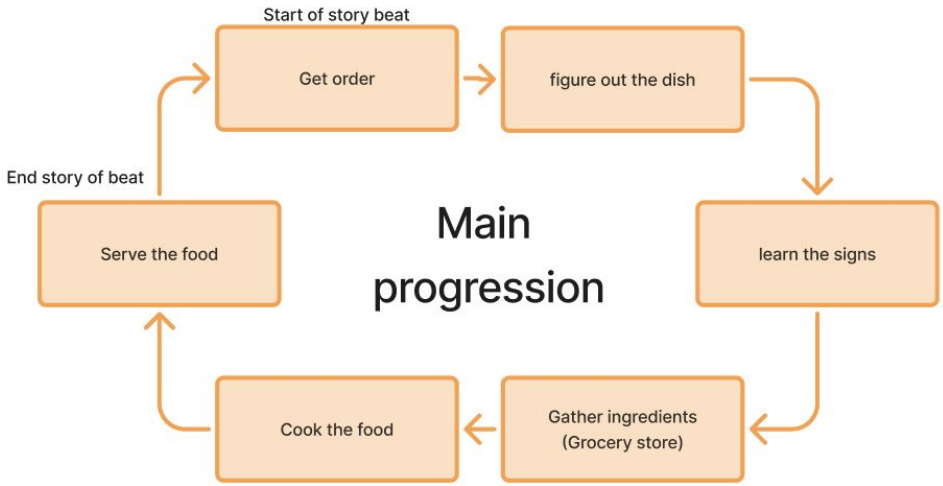

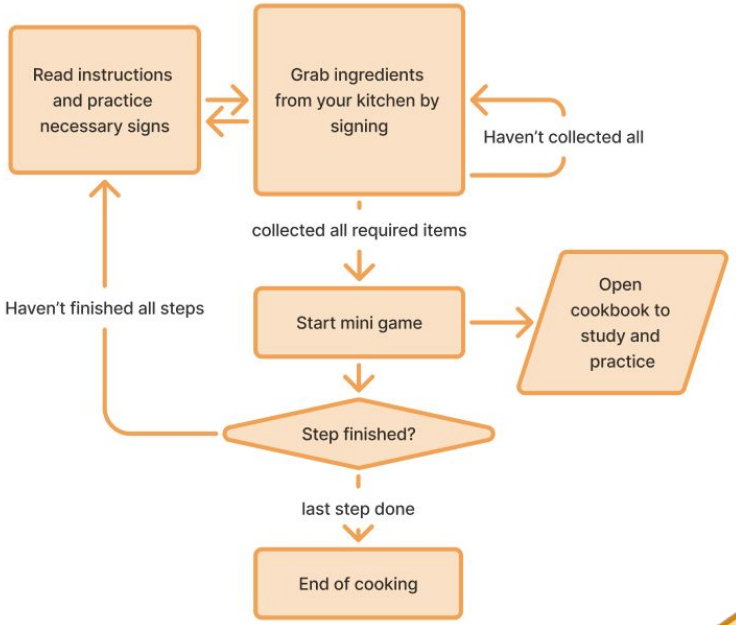

Your grandmother ran a small-town restaurant. Over the years, it became a cherished gathering place for locals. Now, with the restaurant closed and your grandma unable to run it, you must rebuild it from the ground up while discovering stories behind the people who once loved it.

Game loop:

Start of story beat
Get order
figure out the dish
learn the signs
Gather ingredients
(Grocery store)
Cook the food
Serve the food
End story of beat
Main
progression

Read instructions
and practice
necessary signs
Grab ingredients
from your kitchen by
signing
Haven't collected all
collected all required items
Haven't finished all steps
Start mini game
Open
cookbook to
study and
practice
Step finished?
last step done
End of cooking

Interesting features:

Narrative: Emotional engagement increases engagement, persistence, and meaning.

- Narrative transportation theory: Emotional arousal improves memory consolidation

Cooking Theme: Everyone needs to eat!!

Contextual & Situated Learning: Safe Skill Acquisition, theoretical knowledge to practical scenarios, Enhanced Engagement

- Motor actions -> visual signs

Engage-Study-Activate (ESA):

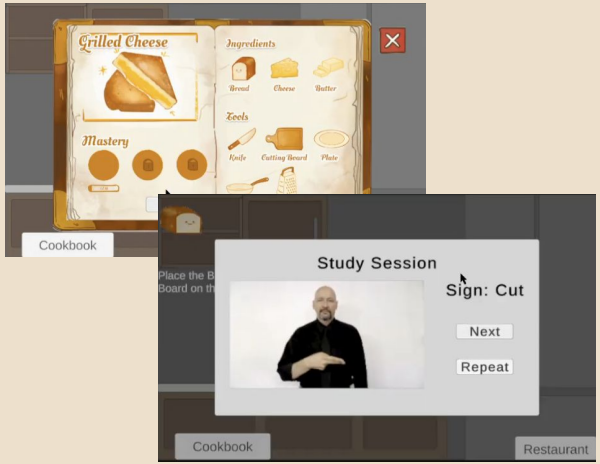

Engage

- Use the setting to immerse the user in a scenario
- Use dialogue to motivate users with in an emotional story (their performance matters)

Study

- Cookbook as a safe place to learn and practice signs
- Cookbook is available at all times to review

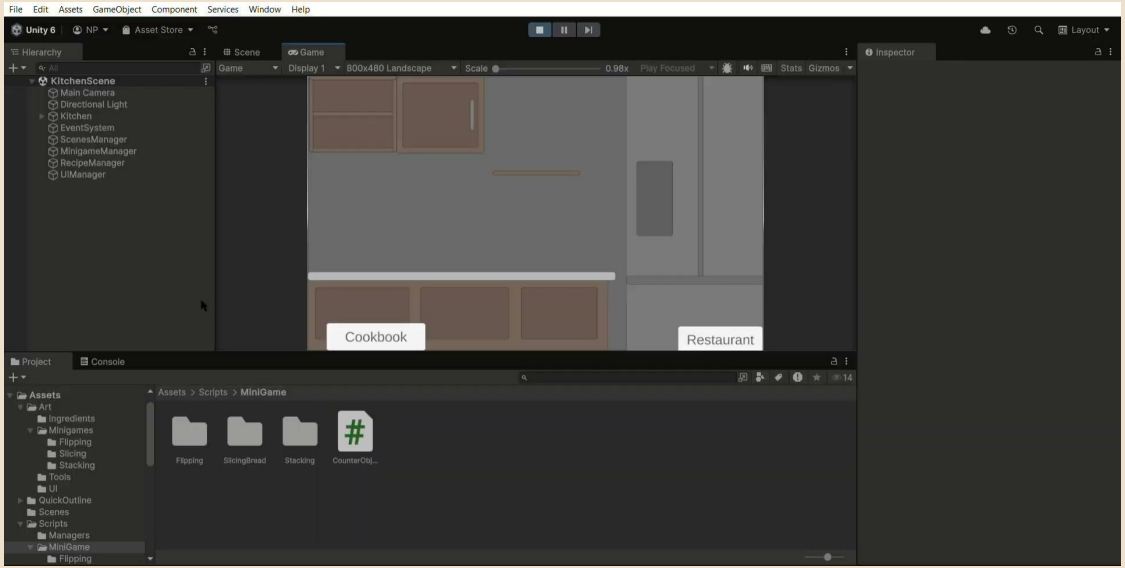

Activate

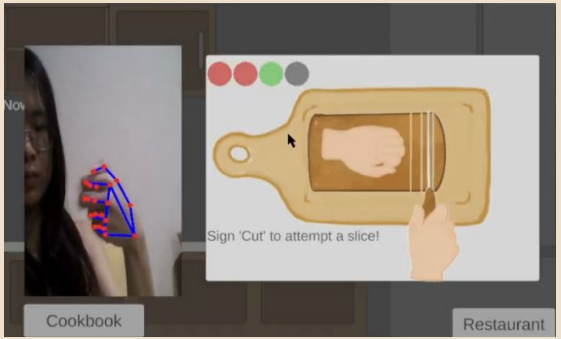

- Shopping for ingredients
  - (unfleshed since it's outside our scope, could be minigames)
- Gathering ingredients and tools from the kitchen
  - Need to sign the right sign to the food selected to obtain food
- Cooking in the minigames
  - Must sign the sign correctly at the right timing to get

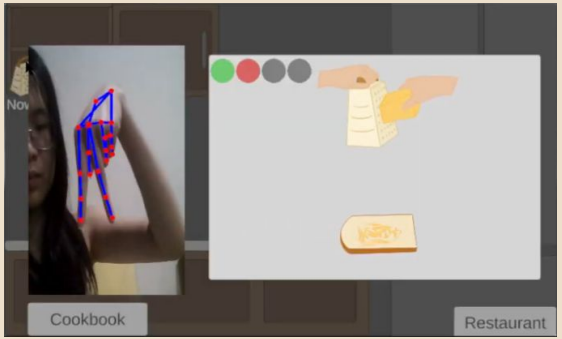

Demo:

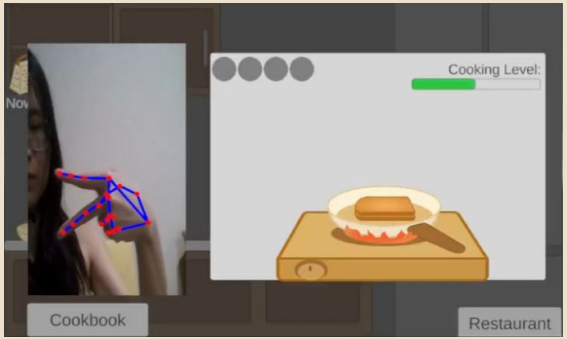

*what we have

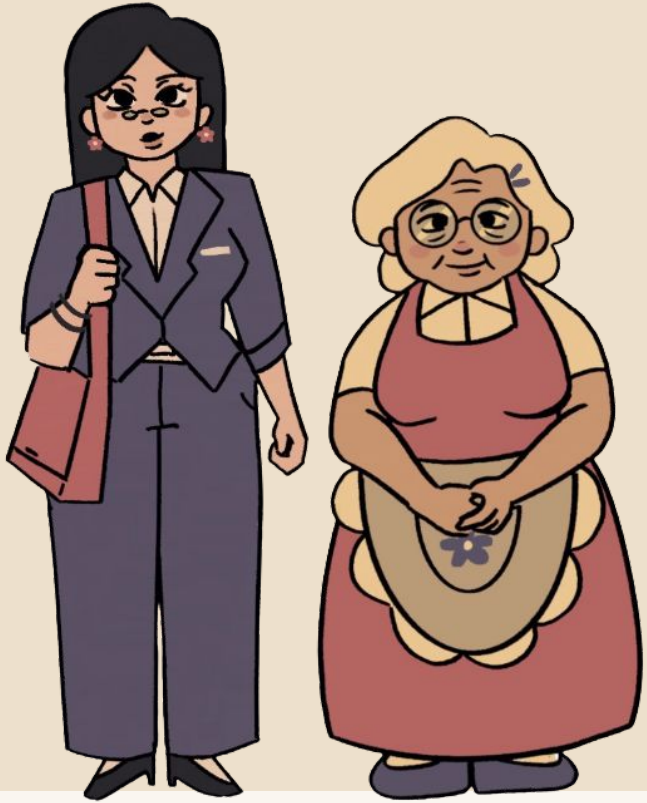

Visuals

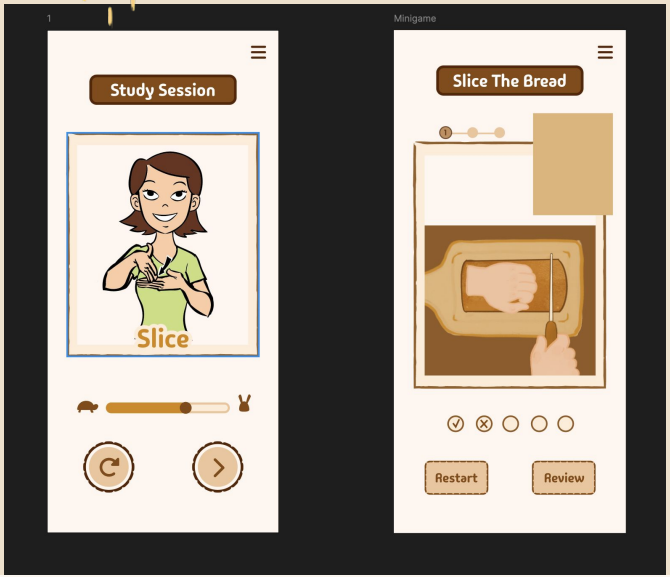

Cozy, bright, soft, simple

Scope of our project + what we have

Prologue scene
meet mom at restaurant
-> visit grandma
grandma gives cookbook + ingredients
-> go back to restaurant
take mom/grandma's order
-> grab ingredients/tools for mini game
play mini game
repeat until recipe is done
-> serve to mom/grandma
unlock map
-> end of demo

Fall 2025 Recap

11/20/2025

What's Deafinitely delicious?

A cozy, narrative-driven ASL cooking game where players inherit their grandma's beloved restaurant. To bring it back to life, they must learn and use ASL to shop, cook, and serve dishes while connecting with customers who share heartfelt stories and memories tied to the restaurant's past.

Purpose of our game:

Help hearing parents connect with their children through cooking and food.

Make learning ASL fun and context-based, tying signs to real-world tasks like shopping and cooking.

Offer a self-paced learning structure with optional repetition to support confidence and retention.

Foster empathy and immersion through an emotional story of reconnecting with family and community through language.

Progress from last semester

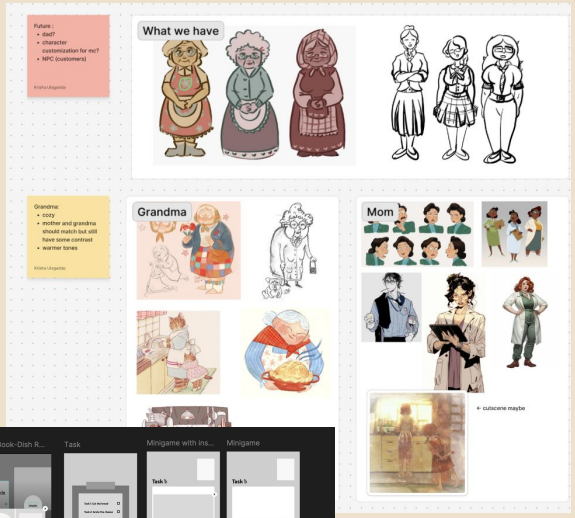

Design achievements:

From last sem:

- **Finalize kitchen layout and interactive elements**
- Design the shopping system and ingredient flow
- **Create and visually define key NPCs**
- Write out story beats and character arcs
- Expand worldbuilding details for the town and restaurant
- **Outline development goals and timeline for next semester**

Additionally: Transitioning from Taiga to basecamp, onboarding new members, transitioning from horizontal to vertical, focusing more on art than writing, narrowing our scope more

Art achievements:

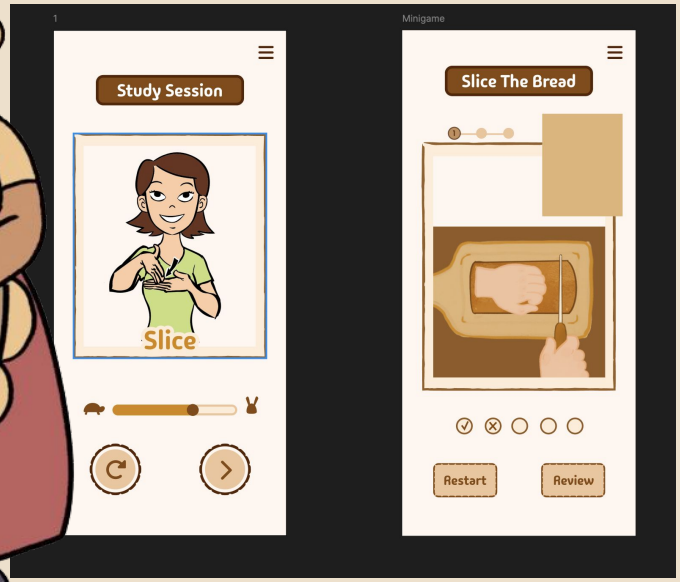

From last sem:

- Create a visual style guide
- **Create art for the flip mini-game**
- **Design UI for mini-games** and title/pause/setting screens
- **Design NPCs** and npc states
- Illustrate the prologue scenes
- **Develop environment art for key locations (restaurant, kitchen,** store, etc.)

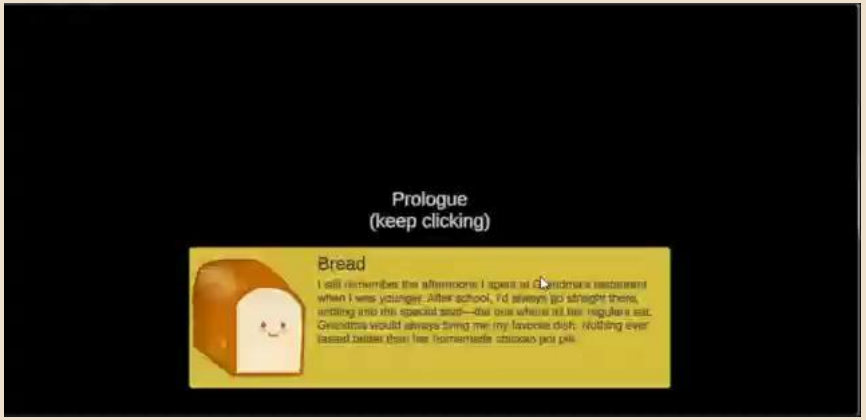

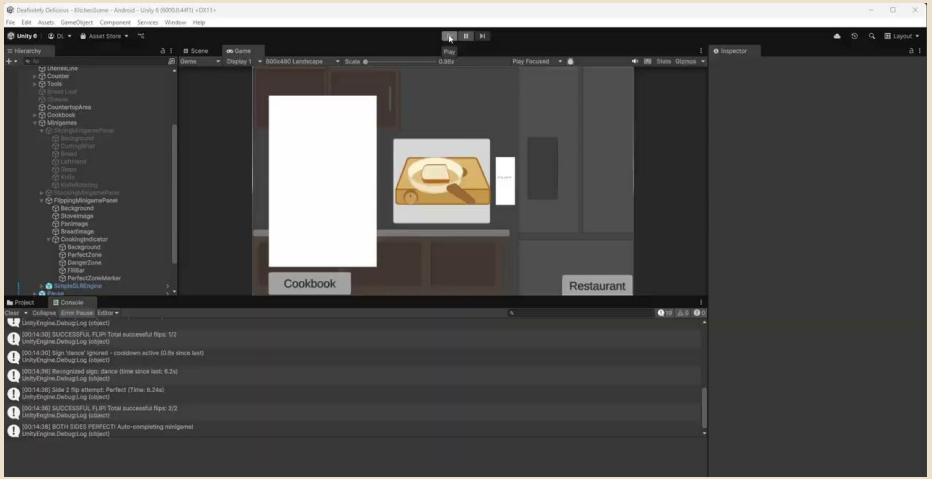

Programming achievements:

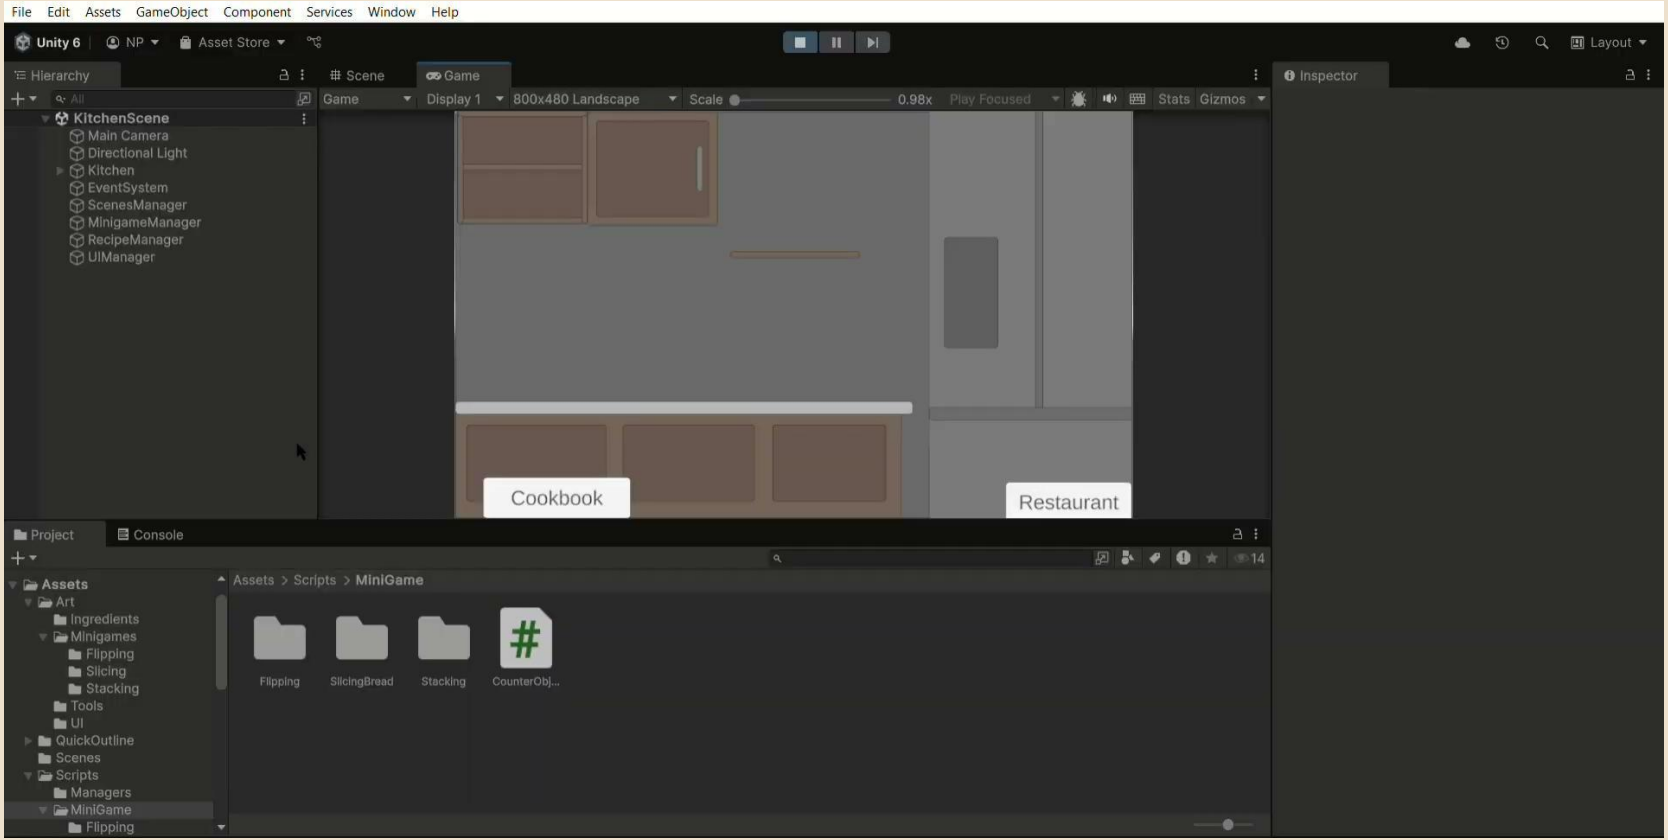

From last sem:

- **Implement dialogue system and npcs**
- **Finish the rest of minigames for Grilled Cheese**
- Add for a serving system
- Incorporate an inventory system
- Add shopping system
- Start on more recipes

Next steps 

Story and demo (our new scope):

Prologue scene
meet mom at restaurant
-> visit grandma
grandma gives cookbook + ingredients
-> go back to restaurant
take mom/grandma's order
-> grab ingredients/tools for mini game
play mini game
repeat until recipe is done
-> serve to mom/grandma
unlock map
-> end of demo

Full writing here:
https://docs.google.com/document/d/1a9D2kMX9vF_ZAxAwqUf1MyTAq8iCHqYUKYS9G5RoQRs/edit?tab=t.ttm7rq4f1sve

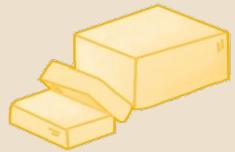

Next steps / goals:

Design / writing / art

- GGD upkeep, esp for art choices
- Grandma’s house environmental design
- Popup for the kitchen ingredient navigation
- Mom + Grandma different sprite states
- Pause menu ui/ux
- Cookbook navigation ui/ux
- Animation for the prologue
- Start screen/ End of demo screen

Programming

- Convert to vertical
- Implement the art into the program
- Cookbook navigation
- Inventory system
- Serving dialogue
- Prologue screens
- Button to remember the sign while in minigame

Thank you <3

11/06/2025

Sprint goals - 10/23 ~ 11/6

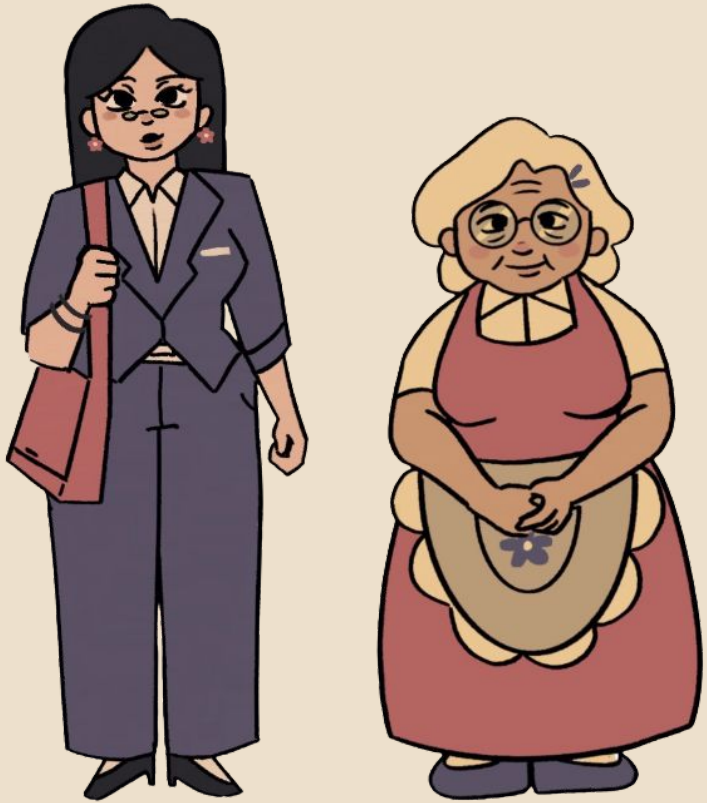

Design / writing / art

- GGD upkeep, esp for art choices
- **Character final**
- **Kitchen final design: Mid ground, background**
- **Restaurant finished**
- **Cookbook UI/UX final design**

Programming

- Converting to vertical
- Serving system
- Prologue, ordering and serving
- Kitchen popups
- **Flip minigame done**

Art: Character design final - Krisha

Art: Kitchen done + making pop ups - Katelyn

UI: Cookbook final - Ngan

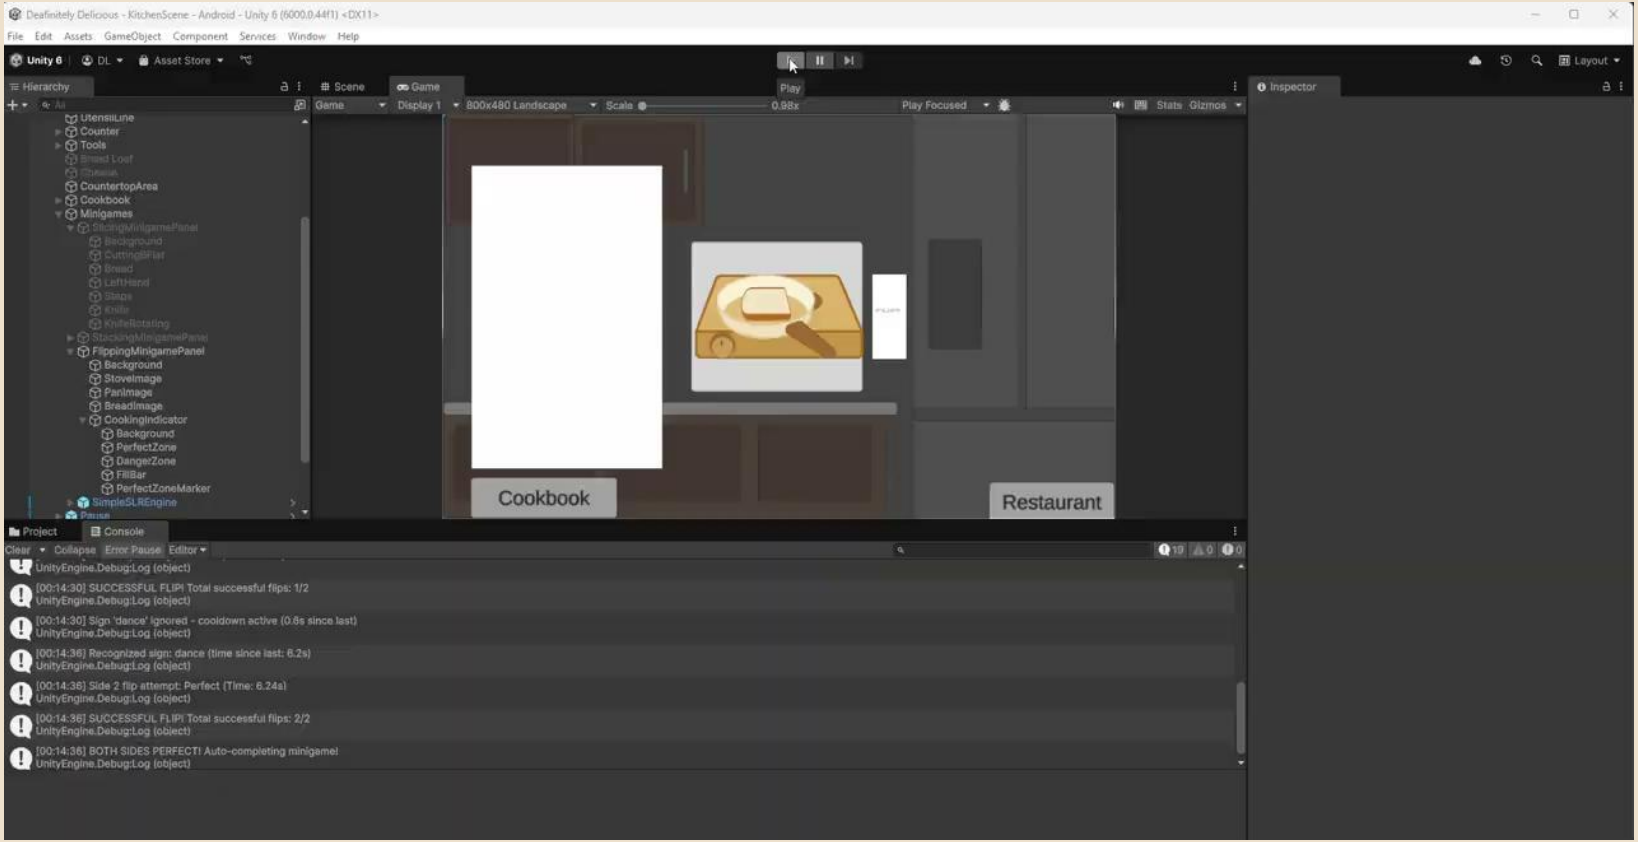

Programming:

- Minigame, UI, and recipe manager have all been updated for easier use in the future
- Grating minigame done
- Flipping minigame done
- Dialogue manager created for all scenes necessary, working on implementing prologue scene completely

Programming: Dialogue - Kat

Programming: Flip minigame - Dylan

10/23/2025

Sprint goals - 10/9 ~ 10/23

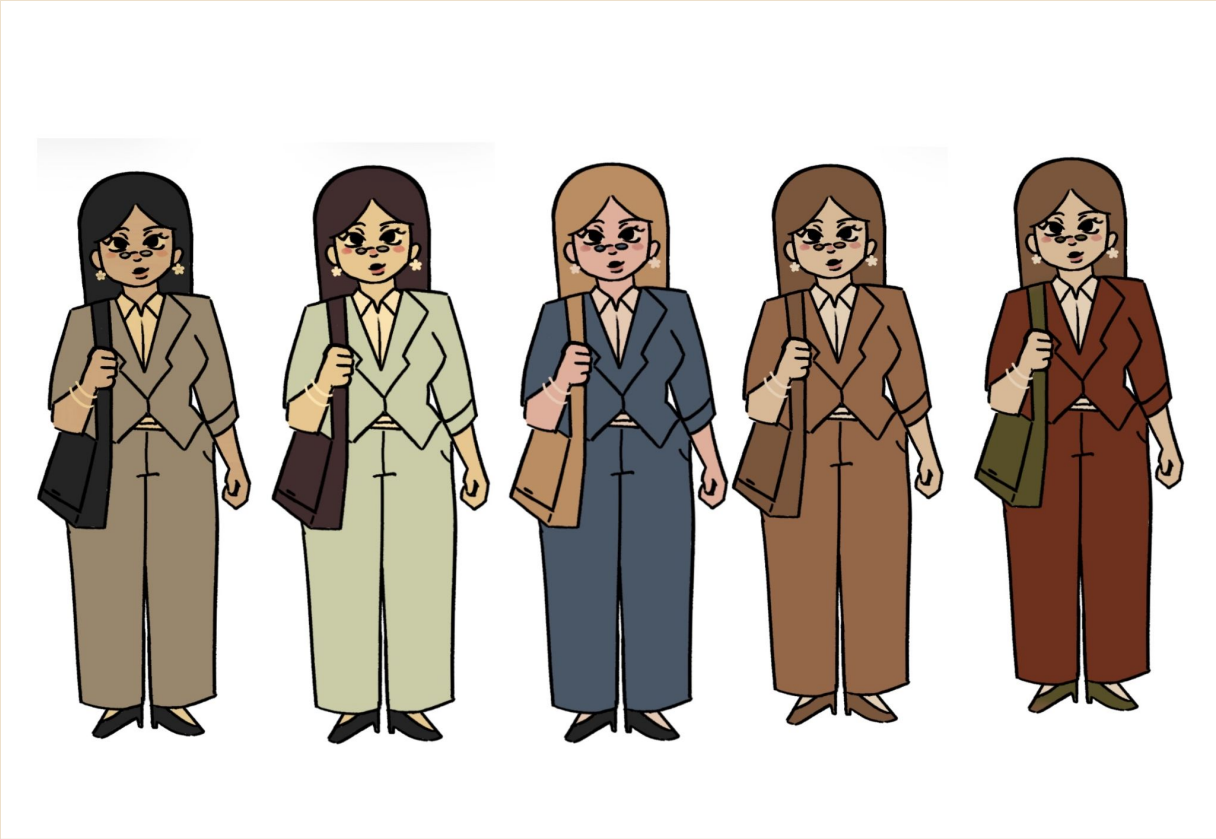

Design / writing / art

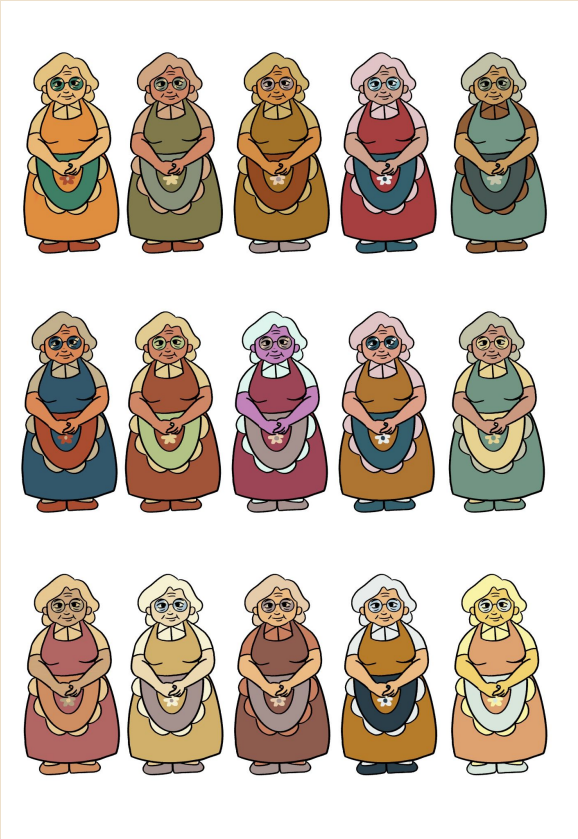

- **GGD upkeep**, esp for art choices
- Sketch: grandma's house. Map. **Kitchen popups**
- Official designs of completed sketches from previous sprint: **Kitchen**, minigame, **Cookbook**, **Grandma**, **Mom**

Programming

- Implement dialogue management for NPCs
- Finish grate and flip

Art: Finalizing Character design- Krisha

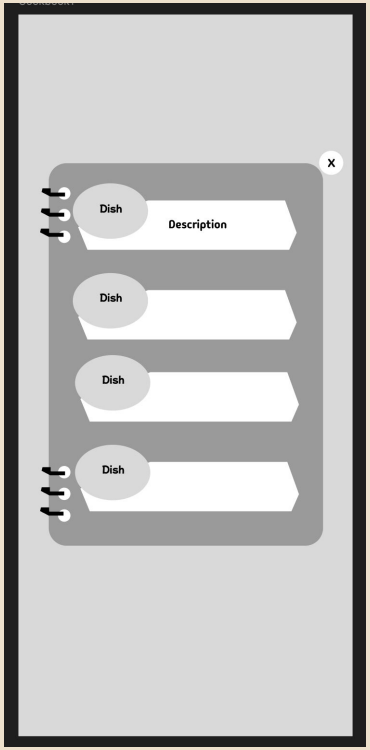

Art: Kitchen flesh out - Katelyn

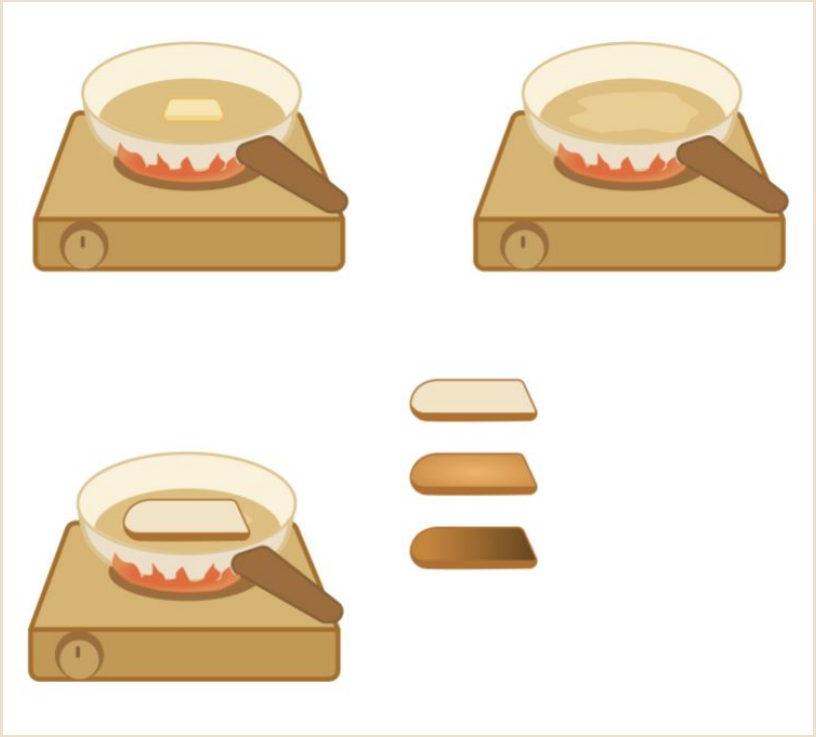

UI: cookbook and flip sprites - Ngan

Update 1-page cookbook

Programming:

- Minigame, UI, and recipe manager have all been updated for easier use in the future
- Grating minigame done
- Flipping minigame done
- Dialogue manager created for all scenes necessary, working on implementing prologue scene completely

10/09/2025

Sprint goals - 9/25 ~ 10/9

Considerations: HackGT, Fall break

Design / writing

- **Design layouts to fit mobile gaming**
- **Move from Taiga to basecamp**
- GGD upkeep, esp for art choices

Programming

- **Host a workshop to make sure members can work on the project on their devices + understand generally how it works**
- **Mobile compatible**
- Implement dialogue management for NPCs
- Finish grate and flip

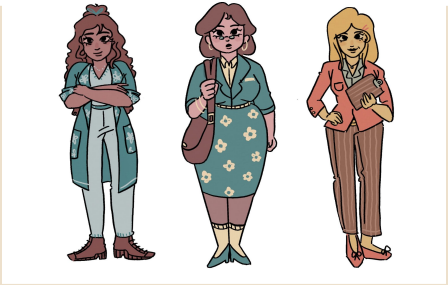

Art

- **Sketch all assets of the game so we have place holders/an idea of what it will look like**
  - **Grandma Mom**
  - **Kitchen, Restaurant**, grandma's house
  - **Minigame popup, teaching popup**, map
-

Art: Character concepts - Krisha

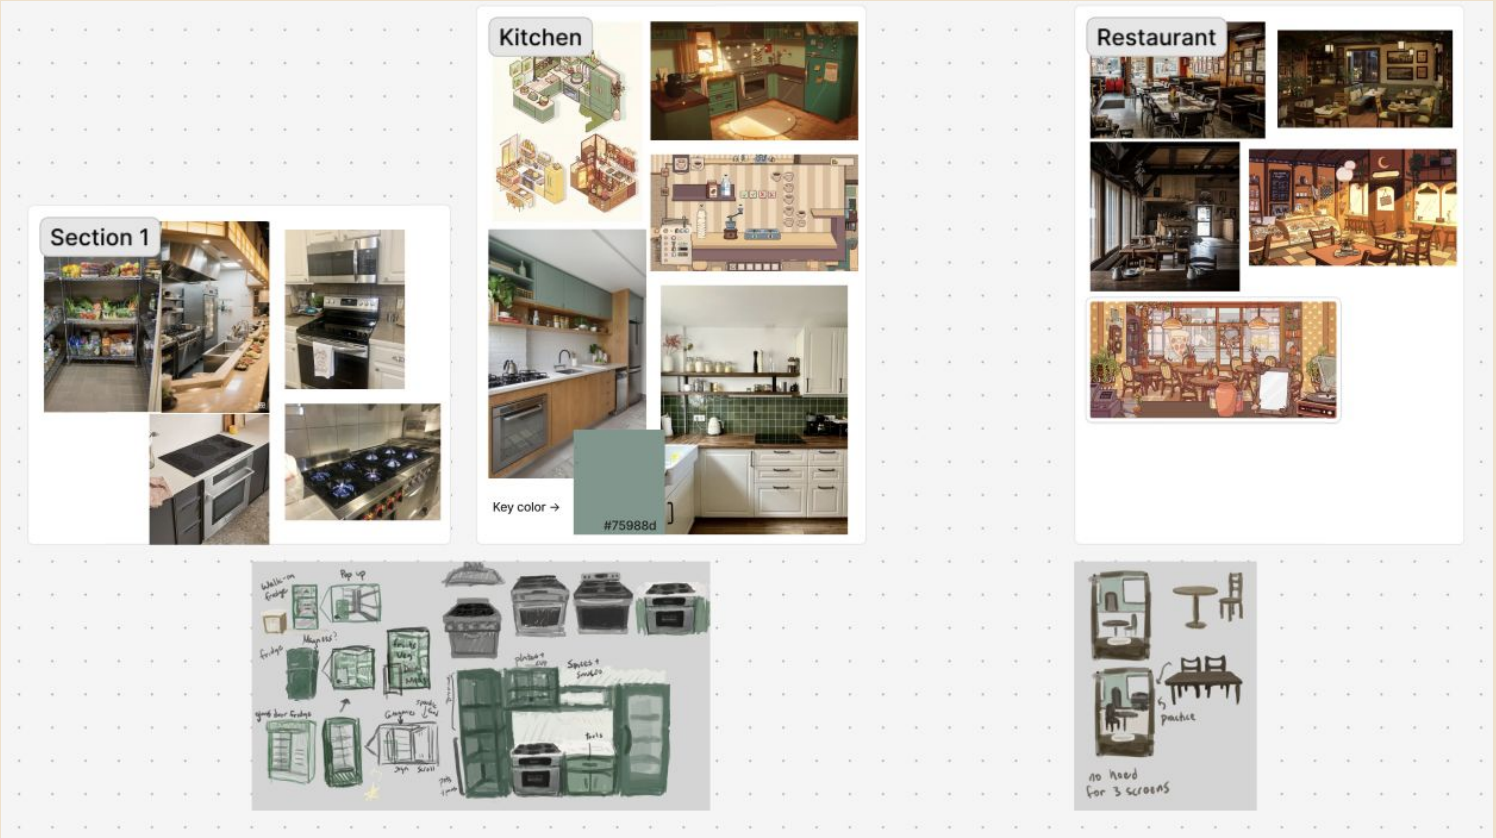

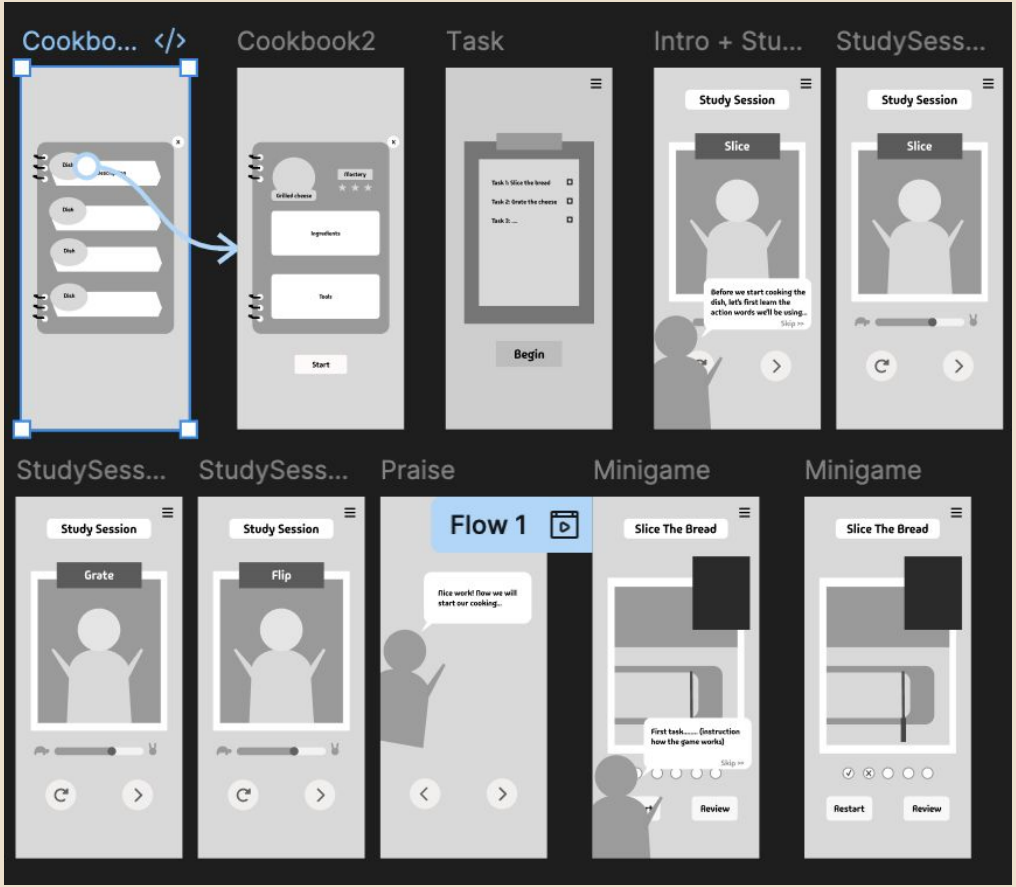

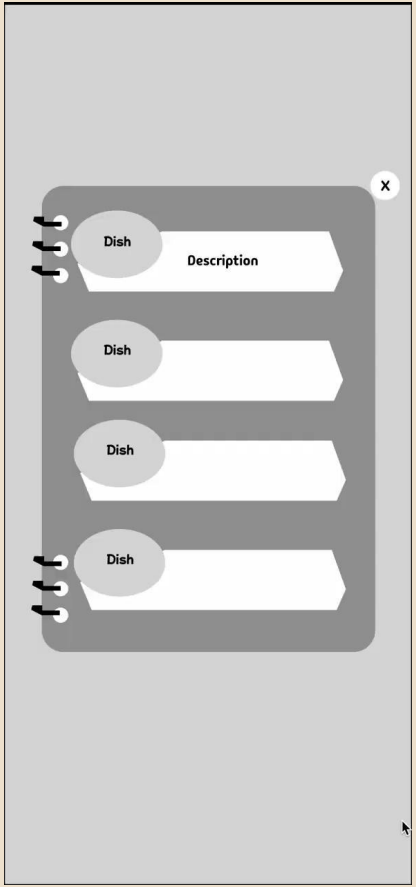

Art: Kitchen and restaurant design - Katelyn

UI: mobile version of minigame - Ngan

Programming:

- Deafinitely Delicious has been converted to be Android compatible
- Workshop held for new members of the programming team to get everyone familiar with the game + scripts!
- Ensured working version of the game on all personal devices
- Dialogue object now in game
- Currently working on implementing the prologue dialogue + the new flipping/grating minigames!

9/25/2025

Sprint goals - 9/25 ~ 10/9

Considerations: HackGT, Fall break

Design / writing

- Design layouts to fit mobile gaming
- Move from Taiga to basecamp
- GGD upkeep, esp for art choices

Programming

- Host a workshop to make sure members can work on the project on their devices + understand generally how it works
- Mobile compatible
- Implement dialogue management for NPCs
- Finish grate and flip

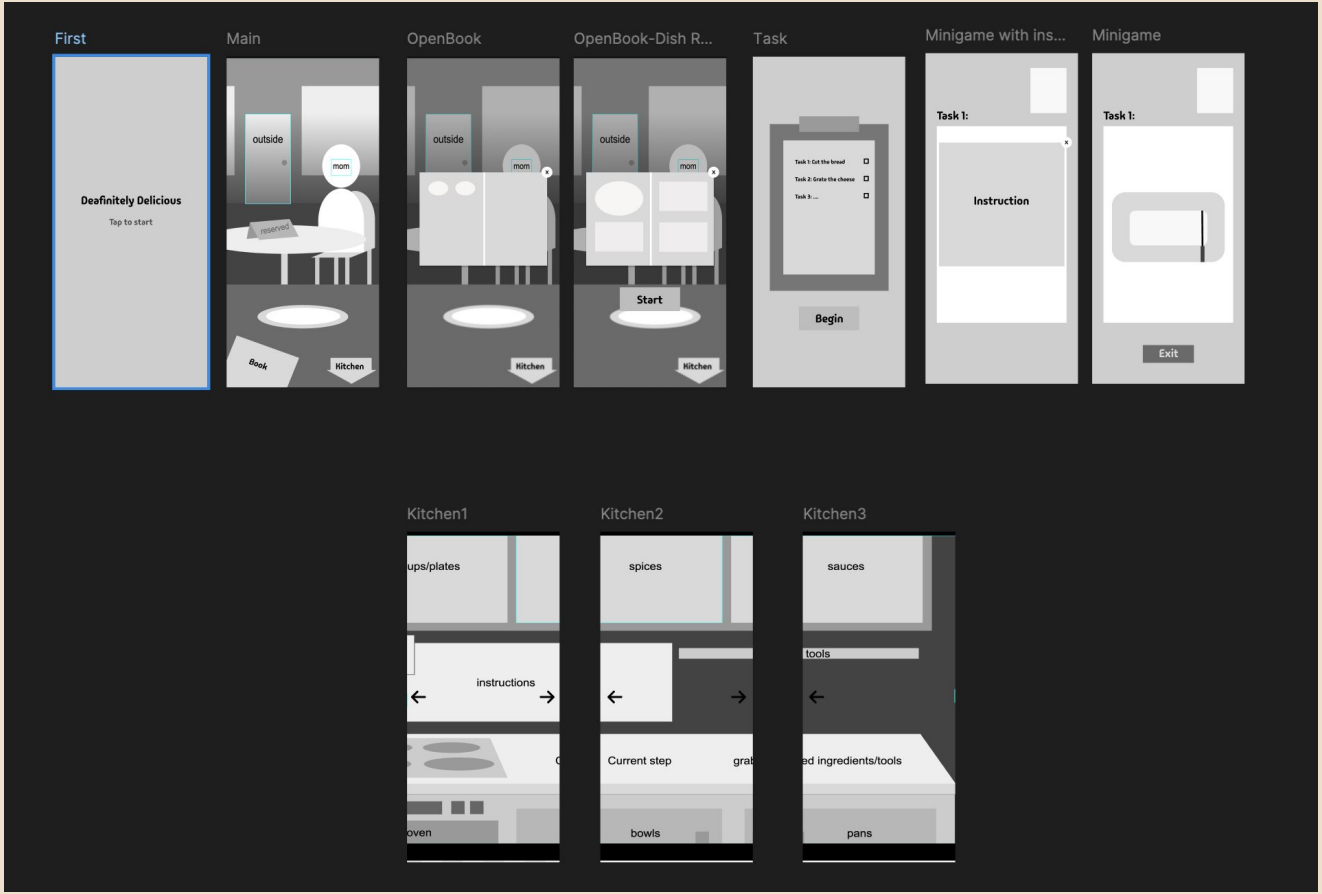

Art

- Sketch all assets of the game so we have place holders/an idea of what it will look like
  - Grandma Mom
  - Kitchen, Restaurant, grandma's house
  - Minigame popup, teaching popup, map
-

Art: Grandma concepts - Krisha

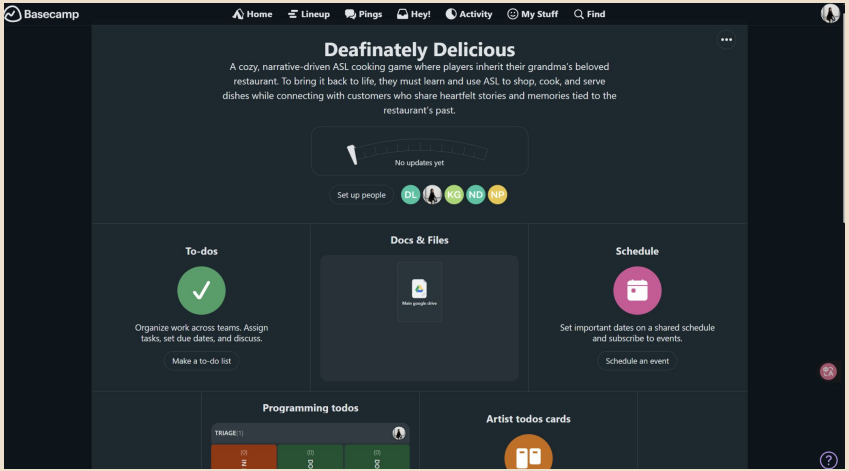

UI: mobile conversion consideration - Ngan

Other things that happened

- Onboarding meeting on monday
  - Added everyone on discord
  - Introduced everyone
- Made a basecamp poject!

What we've learned + completed

Design / writing

Learned:

- How to develop an effective and comprehensive Game Design Document (GDD)
- Strategies for managing a team and delegating tasks efficiently

Completed:

- Developed the core concept of the game
- Wrote dialogue and story beats for the tutorial section
- Created and maintained the GDD and progress slides
- Designed the gameplay flow
- Wrote instructions for the grilled cheese sandwich recipe

Programming

Learned:

- Effective use of modular design: making code more centralized and reusable
- Leading technical decisions: guiding team structure as programming lead and setting coding standards.

Completed:

- Created managers to reduce redundancy on several aspects of the game
- Designed basic scene UI
- Implemented mini game that incorporated math and sign recognizer

Art

Learned:

- Developed the visual style from initial concepts
- Used Procreate and Figma to create game assets and layout designs

Completed:

- General design for cookbook
- Grilled cheese sandwich cookbook page, including ingredients, tools
- Minigame art (Slicing and Grating game)

Next steps / goals:

Design / writing

Katelyn Gumagay:
Continuing next semester

- Finalize kitchen layout and interactive elements
- Design the shopping system and ingredient flow
- Create and visually define key NPCs
- Write out story beats and character arcs
- Expand worldbuilding details for the town and restaurant
- Outline development goals and timeline for next semester

Programming

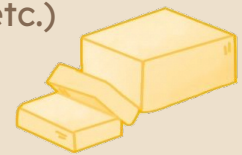

Nix Pham:
Continuing next semester

- Implement dialogue system and npcs
- Finish the rest of minigames for Grilled Cheese
- Add for a serving system
- Incorporate an inventory system
- Add shopping system
- Start on more recipes

Art

Ngan Do:
Continuing next semester

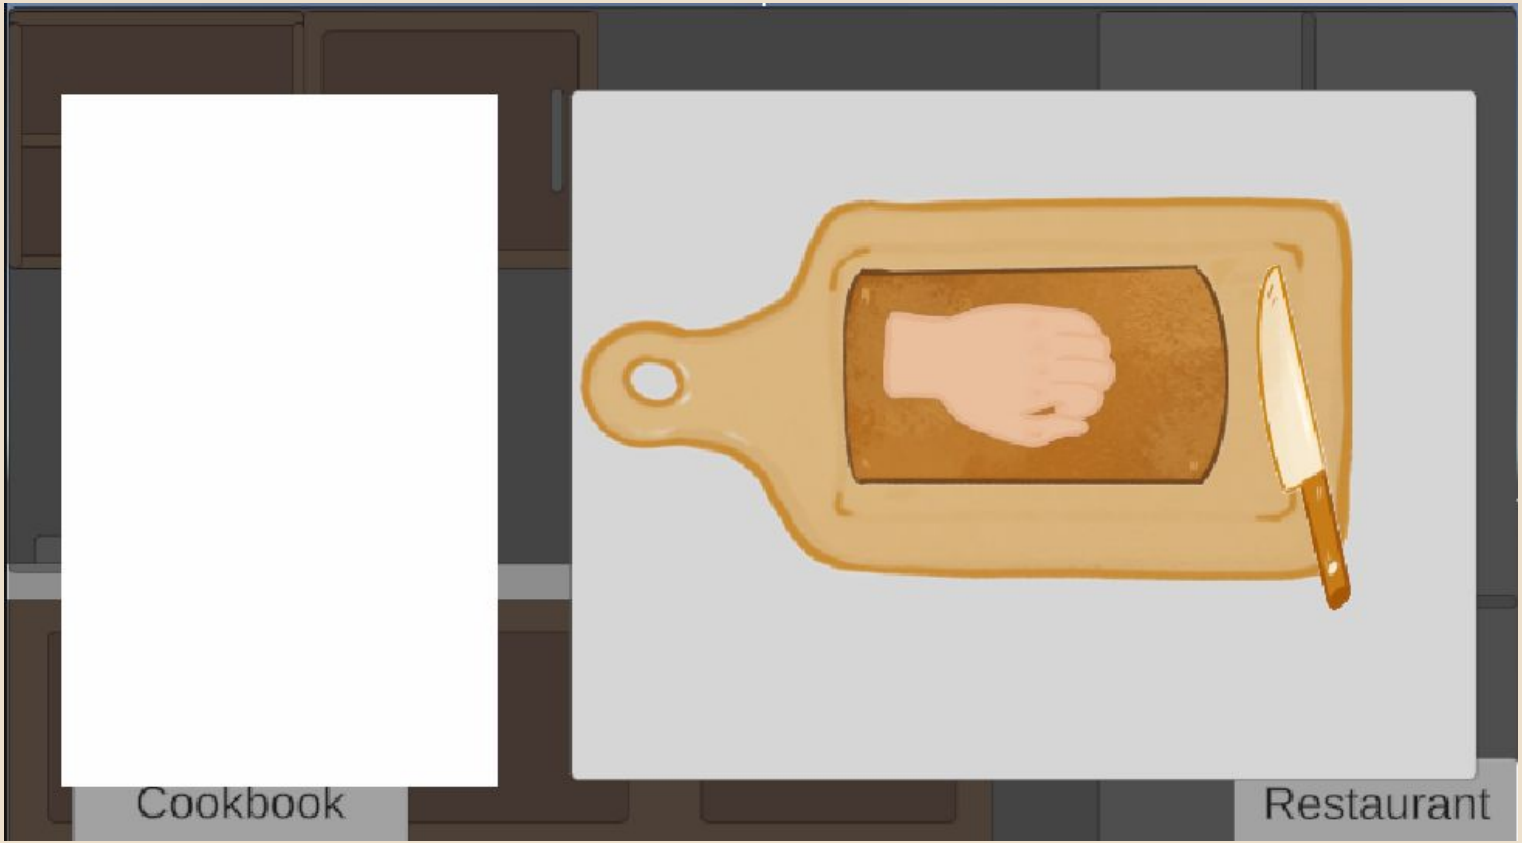

- Create a visual style guide
- Create art for the flip mini-game
- Design UI for mini-games and title/pause/setting screens
- Design NPCs and npc states
- Illustrate the prologue scenes
- Develop environment art for key locations (restaurant, kitchen, store, etc.)

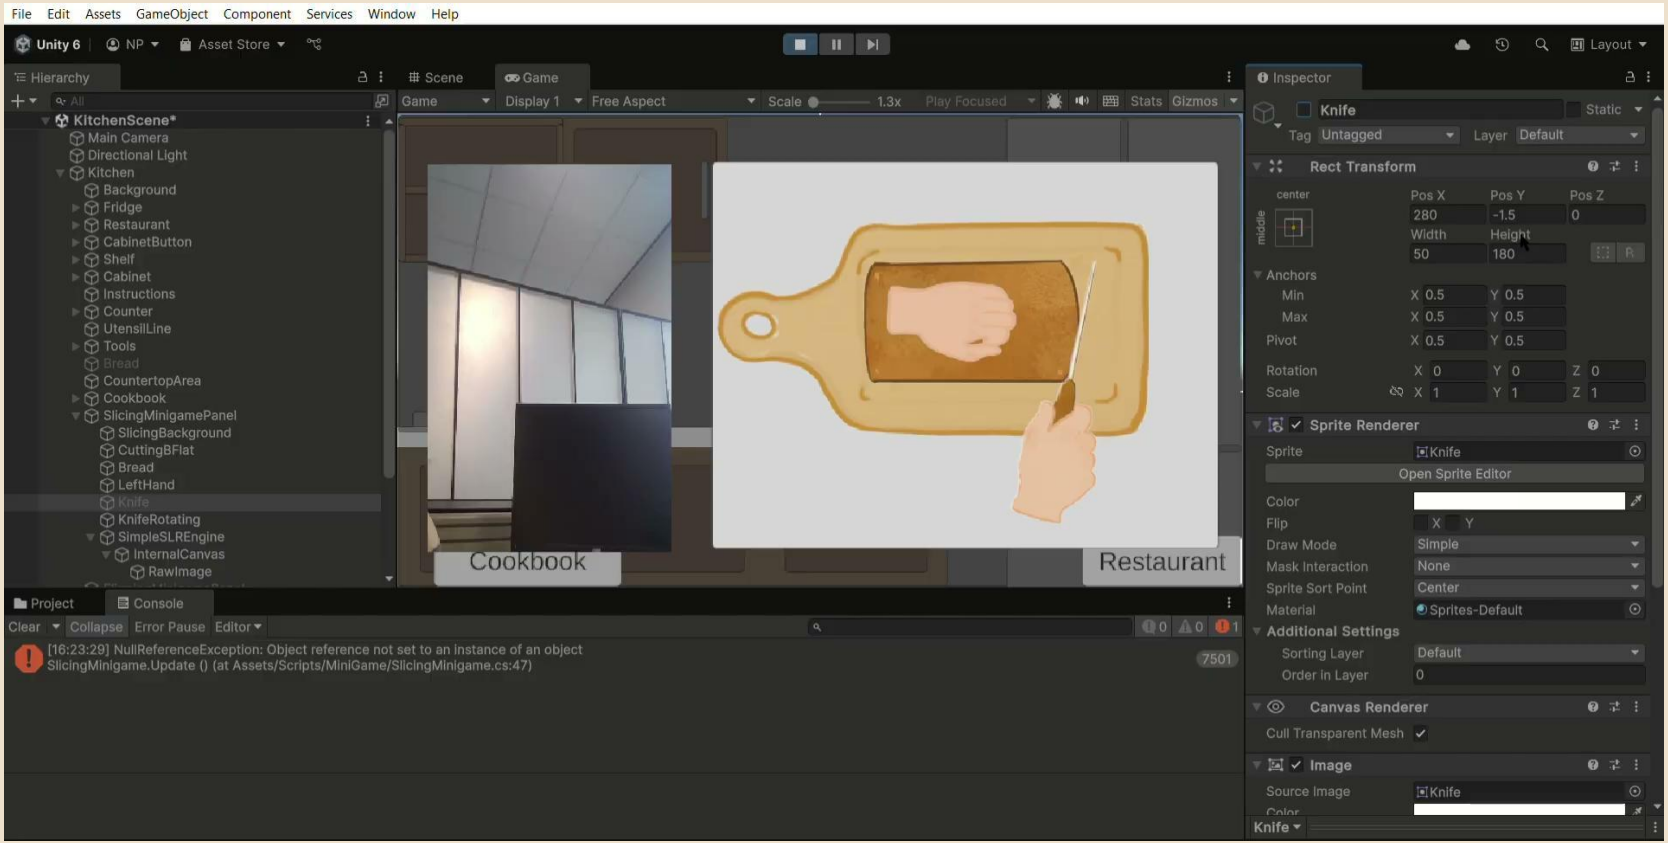

We hope to get more people on our team. Specifically writers, programmers and environmental + character artists <3

4/1/2025

Art: Slice art - Ngan Do

Programming: Slice minigame - Nix Pham

Writing - Katelyn Gumagay

3.5.1 Pre minigame:
Mini-games are triggered during the cooking process. The player will need to go to the recipe they're trying to cook and click on the cook button to start. They will be directed to the kitchen area in which instructions will appear on screen. These instructions will have associated ingredients and tools indicators per step to tell the player what they need to have ready.

In the kitchen there are two different spaces, storage and counter space. The counter space is split into two different regions, with the left side being the active counter and the right side being the on hold counter. The active counter is where the player will drag the ingredients that they're using for the active instruction step. The hold counter will be space for the ingredients and tools that were grabbed from the storage. Given that, when trying to complete a recipe, the player will go into the storage and sign all the ingredients and tools needed. These items will move from the storage space and onto the hold counter. The player is then expected to move the items associated with the current step and place them on the active counter. When all requirements are satisfied, there will be a play button that appears on the active counter. Clicking this will activate the minigame.

*Stove: for steps requiring the stove, the player will place the pan or pot on the stove and the ingredients on the active slot. When both requirements are satisfied, the play button will show on the stove.

3.5.2 Minigames:
Each minigame will be based on the active instructions. The completion method must be through signing. For inspiration, look at cooking mama minigames.

Possible mini game success criteria:
- Timing of the sign (recommended)
- Order of the sign
- Accuracy of the sign
- Repeated signing

After every step of the minigame:
- There will be an item that comes out of it (ex. Sliced bread, bowl of dry ingredients, the finished product, etc)
- All the tools that were associated with the step will go back to its original position (unless it is a container which is associated with the outcome of the step).
- Ingredients that are consumable are consumed, otherwise they go back to its original position

Refer to the subtab Minigames

Grilled cheese			
Image			
Ingredients	Bread	Sprite name/directory:	
	Butter		
	Cheese		
Tools	Frying Pan		
	Grate		
	Knife		
	Cutting board		
	Components	**Instructions**	**Output**
Steps	Bread + knife + cutting board	Put the loaf of bread on the cutting board and slice it into toast like bread	Sliced bread (will remain on cutting board) *knife
	Grate + cheese + sliced bread	Grate the cheese on top of the bread. Close it with another slice of bread	Uncooked bread with cheese (will remain on cutting board) *grate
	Butter + pan + uncooked bread with cheese	Butter the pan and put the bread with cheese on the pan. Flip until both sides are golden brown.	Cooked grilled cheese sandwich on pan (will remain on stove)
	Cooked grilled cheese sandwich on pan + knife + cutting board	Use a knife on a cutting board to cut the grilled cheese sandwich diagonally in half.	Cut grilled cheese sandwich *knife
	Plate + cooked grilled cheese sandwich	Serve the completed dish!	Grilled cheese sandwich *cutting board

*returning these items to the original position

Art: Grilled cheese slides - Ngan Do

Programming: Pop Ups! - Nix Pham

Writing - Katelyn Gumagay

In game first look scene/ ingredients tutorials

The animation transitions to the restaurant

Text	Visual
“It felt like yesterday since I last came here. It’s a whole lot barren though that’s for sure”	Pan of the restaurant
“Oh! someone is at the door I should let them in”	There’s a notification next to the door of the restaurant. Player is directed to click on it. Mother comes in and sits on reserved seat
“She must be tired from today. I should go talk to her”	Player is directed to click on mom sprite
Mom: “Hey sweetie, how does the place look?” Player: - “Just like how I remembered!” - “It’s missing a few things” Mom (response based on answer): - “Haha yeah it’s nice to be back in this room” - “Yeah we had to sell a couple of things since we didn’t have anywhere to put it” Mom: “We should go visit your grandma, she has been waiting to see you” Mom's default line: “what are you waiting for, let's go!”	Conversation screen.
I guess I will have to follow her	Mom leaves the seat to the door. Player is directed to click on door
	Map. Player is directed to click on grandma’s house

Grandma’s house

Text	Visual
Mom: “I’ll grab your bags for you, go ahead and talk to grandma, she’s been asking for you” *I walk into the living room in grandma’s favorite spot.*	Ideally front door but it’s not necessary for the tutorial.
She’s rocking on her chair. Staring towards the kitchen. When she spots me she smiles Grandma: “When did you get here?” Player: “Just now grandma. I’m glad to be back” Grandma: “Did you go see the old place?” Player (based on the response when with mom): - “Yes I did, it still felt like home” - “Yeah, it doesn’t feel the same” Grandma: “I have a gift for you”	Living room, grandma in a seat in the middle
Player: “What is it” Grandma: “It’s all the knowledge I’ve gained when I ran that place”	Pop up of receiving the book
Player: “What do you want me to do with it?” Grandma: “Cook!” Player: “Cook? Where?” Grandma: “At the restaurant of course!” Player: “What do I cook?” Grandma: “Anything! I gave you my cookbook!”	Pop up closes. Living room
Wow, I can’t really understand any of this. The pages are old it’s hard to read the instructions *All that I could understand is the first page*	Player is directed to open up the cookbook.
Player: “Do you want a grilled cheese sandwich?” Grandma: “I would love that! I left my pan at the restaurant though, you’ll have to go back to cook. I can give you the ingredients though, just tell me	Pop up gets moved down

Writing - Katelyn Gumagay

Prologue scene dialogue

"I still remember the afternoons I spent at Grandma's restaurant when I was younger. After school, I'd always go straight there, settling into the special seat—the one where all her regulars sat. Grandma would always bring me my favorite dish. Nothing ever tasted better than her homemade chicken pot pie."
"I'd sit there, waiting for Mom to finish work. When she arrived, she'd join me, and we'd eat together—it was our little routine."
"Sometimes, other people would be seated at my table. Grandma always introduced me, encouraging me to chat with them. I'd say hello, maybe share a few words, but I was usually too caught up in whatever I was doing to really get to know them."
"When I left for college, what I missed most wasn't just the food—it was the warmth of the place, the feeling of home. But the hardest news came when I heard that Grandma was getting too sick to run the restaurant. She had no choice but to close it down."
"That day, I made a promise to myself: Once I graduate, I'll come back home and bring Grandma's restaurant back to life."

Design: Scenes - Katelyn Gumagay

Design: Minigames - Katelyn Gumagay + Nix Pham

#14 Cooking minigame: Slice

USER STORY

kitchen ✕ minigame ✕ Add tag +

Created by Katelyn Gumagay
26 Feb 2025 18:17

Knife will rotate on a pivot below the bread, player will need to sign SLICE when the line is parallel to the front of the bread to succeed. If the player cuts in an angle the bread will automatically take off the bit so that the bread is straight.

If the player runs out of space to cut the bread they will need to restart the game

What the sign looks like: https://www.youtube.com/watch?v=JGMRW0Py_L8

future: If we have the technical ability, the knife can stop just when the player starts signing SLICE and then the speed of the slicing motion of the sign determines how well the bread is sliced (too fast the bread is jagged, too slow it squishes the bread)

#11 Cooking minigame: Grating/Stacking cheese

USER STORY

kitchen ✕ minigame ✕ Add tag +

Created by Katelyn Gumagay
25 Feb 2025 17:28

Player would need to sign the word GRATE to grate the cheese and try to make the cheese land on the bottom bread while it's moving side to side.

Cheese will run out when you grate and if the player fails to put enough on the bread they would have to redo it.

The accuracy of the sign should correlate to the amount of cheese grated

What the sign looks like: https://www.youtube.com/watch?v=mCNeFwKCSdE

#17 Cooking minigame: Flip bread

USER STORY

kitchen ✕ minigame ✕ Add tag +

Created by Katelyn Gumagay
27 Feb 2025 19:58

Player puts bread into the pan and there will be an indicator as to how cooked the breed is. Player needs to sign FLIP-OVER in a perfect time so it isn't undercooked or burnt.

If it is undercooked player would need to flip it over again to cook it more.

if it's overcooked the player would need to try again.

When you're done flipping if you sign DONE. Program will check if both sides are "cooked" and then based on that recipe will ether be complete or the player will have to redo the minigame

What the sign looks like: https://www.youtube.com/watch?v=n2mu_oSDjXw
